

## CSI-328ALL-2025-03

Title: Clarification Regarding NAV Database Support for Dornier 328 Series

Effectivity: Dornier 328-100 & -300 Series

Type Certificate Data Sheets: EASA.A.096 / FAA A45NM & A55NM

Serial No.: All Aircraft

Dear Valued Customer,

We would like to clarify recent communications sent by our supplier Honeywell regarding the discontinuation of support for NAV databases in FMS with software versions below 6.1. The initial message **incorrectly** included Dornier 328 aircraft.

Honeywell has since recognised this error and sent a corrective message to the affected customers, stating:

*We have been informed that the attached communication will not impact DO-328 aircraft at this time and you may ignore the email that was sent. We apologise for any confusion it may have caused.*

*- Database Services, Honeywell*

Model: Dornier 328

Rev. No.: 0

No.: 328ALL-2025-03

Rev. Date:

Date of Issue: 01 August 2025

Page 1 of 2

Honeywell has not defined any deadline for discontinuing support of earlier FMS versions for Dornier 328 aircraft. **At this time, there is no immediate change in NAV database availability for Dornier 328 aircraft.**

However, Deutsche Aircraft continues to work closely with Honeywell to evaluate long-term upgrade options for the fleet. Once a coordinated and cost-effective upgrade solution is defined, we will proactively communicate guidance to all operators to allow adequate planning and decision-making.

Please do not hesitate to contact us if you have any questions.

Yours sincerely

i.V. Sebastian Mehwald  
Head of Technical Support

i.V. Augusto Campagnon  
Head of Material Support
