TABLE OF CONTENT

INTRODUCTION

1. General

This PUBLICATIONS INDEX (PI) contains all documents available for the operation and maintenance of the Dornier 328 - 100 aircraft and its installed equipment.

The documents not delivered as either standard aircraft documentation or standard vendor documentation but required for trouble shooting, test, repair or maintenance can be ordered, through Deutsche Aircraft GmbH or through the concerning vendor, as necessary.

Certain documents are only available to those operators who have been certified to repair and/or overhaul by the individual vendor.

Documents currently in work are listed in ANNEX A.

The PI will be published monthly.

2. Validity of Documents

Make sure, to have the valid issue of the manual and all relevant TRs available before using the manual. This Publications Index shows the latest issue and the revision status of the documents issued by the aircraft manufacturer. Only those aircraft manufacturer manuals/documents are valid which have the same issue date/ revision date as given in the PI. Vendor manuals listed in the Publications Index is valid of this issue which is available at the concerning vendor support.

NOTE: If a manual/document is available with an issue date /revision date higher than the date given in the Publications Index, the higher issue date has priority. The reason for this difference can be that the Publications Index has a monthly update and therefore the gap between the delivery of documentation and the delivery of the updated PI can be up to one month. In this case please check the next issue of the PI.

Manuals and TRs in the A/C MFR PUBLICATIONS part of the Publications Index can have the following extensions of the document numbers:

–**ALL**	These manuals are non–customized manuals and valid for all users
–**ENV**	These manuals or TRs are envelope issues
–**Customer ID**	These manuals or TRs are customized for a specific fleet, see 6. Customer Identification
–**Aircraft S/N**	These manuals or TRs are valid for a single aircraft serial number (e.g. 3095)
–**X**	These TRs have to be observed in addition to the envelope manuals and all customer manuals
–**YYYYY (PDF)**	These manuals or TRs are digital versions of the documents

INTRODUCTION

Example: The holder of the Aircraft Maintenance Manual TM–AMM–190793–ENV has to observe in addition to this manual all TRs with the extension –ENV and –X.

The same applies to the digital version of the manuals with the addition (PDF).

SB's, EO's, RO's, SI's, CI's, AOT's and AD's have the same extensions as manuals and TRs:

–**Customer ID** These service bulletins are customized for a specific fleet, see 5. Customer Identification
–**X** These service bulletins are valid for all customers

The document–number of these bulletins is shown in the column Doc.–Title.

The valid contents of a manual can be identified by comparison of the pages with the List of Effective Pages (LEP) which is a part of the front matter of each manual.
To introduce and register Temporary Revisions into a manual always follow the insertion instructions.

3. Chapter 1 Remarks

–**CD-ROM** These documents are distributed on CD-ROM
–**DISKETTE** These documents are distributed on diskette
–**Edition: dd.mm.yyyy** These "Edition" dates shows the date when the (PDF) document was changed by TechPub
–**MFR Overh. Only** These documents are distributed to manufacturer approved overhaul facilities only
–**Outdated** These documents are no longer valid and must not be used
–**S/N** These documents are valid for the listed aircraft serial number

4. Component Maintenance Manuals from Vendors

The Publications Index shows the latest issue and the revision status of the vendor documentations to the best of our knowledge.

5. Technical Publications in CAMSIS

The envelope issues of the AMM, AIPC, FIM, PPBM, CML and others also provided together in the CAMSIS. If you have the revision service for this document-collection, you can now download it as an .zip file or receive it as an DVD.

INTRODUCTION

INTRODUCTION

CAUTION: TEMPORARY REVISIONS (TR) ARE NOT COVERED BY THE DVD OR .ZIP FILE.

WHEN YOU HAVE A DVD, YOU WILL RECEIVE THE TRS AS HARDCOPIES.

WHEN YOU HAVE THE .ZIP FILE THE TRS ARE PROVIDED AS SEPARATE PDFS.

YOU HAVE TO USE EITHER OF THESE FORMS OF TRS TOGETHER WITH THE CAMSIS TO HAVE COMPLETE AND UP-TO-DATE DOCUMENTS.

REFER TO THE MONTHLY PUBLICATED PUBLICATION INDEX FOR ALL ACTIVE TRS.

6. Index Breakdown

The general breakdown of the PI is:

– A/C MFR PUBLICATIONS
– VENDOR PUBLICATIONS
- Sort Vendor alphabetical
- Sort ATA–Chapter Code
- Sort Part Number

– SERVICE PUBLICATIONS
- SB's, EO's, RO's, SI's, CI's, AOT's, AD's etc.

7. Customer Identification

–ABFAI	ABFA Investments	–GLR	Central Mountain Air
–ADA	Aerolinea de Antioquia	–LFO	Deutsches Zentrum für Luft- und Raumfahrt
–ADNB	Mediterranean Aviation	–PEARL	Pearl Aviation
–AFEX	Afrimex (DANA)	–PWF	Private Wings Flugcharter GmbH
–AWI	Air Wisconsin Airlines	–SAY	Loganair (Suckling Airways)
–DANA	Dornier Aviation Nigeria	–SNCORP	Sierra Nevada Corporation
–EAGLE	Eagle Air	–SUS	Sun–Air of Scandinavia
–EASPA	EASP Air BV	–TAA	Tyrol Air Ambulance / Welcome Air
–EXECU	Execu Jet Aviaiton		

INTRODUCTION

8. Instructions for Continued Airworthiness

Following Manuals contain ICA in accordance with EASA Part 21.A.7(a):

NOTE: Refer to the following Sections for the current revision and temporary revision status for the manual.

Manual Name	Abbreviated	A/C-Type	Documentnumber	Initial Issue	Remarks
Weight and Balance Manual	WBM	328-100	TM-WBM-190793-ENV	10.10.1995	
Airworthiness Limitations Document	ALD	328-100	TM-ALD-010693-ALL	01.06.1993	
Certification Maintenance Requirements Document	CMR	328-100	TM-CMR-010793-ALL	01.07.1993
