

HR & EMPLOYMENT LAW CONFERENCE 2022

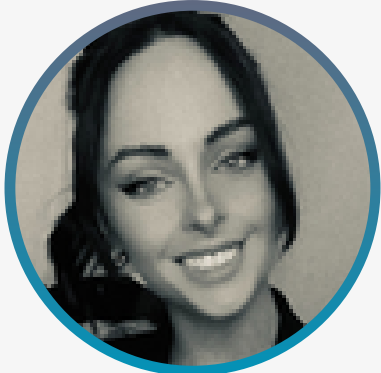

The Human Resources and Employment Law landscape is undergoing incredible change, and keeping up with the latest solutions, methodologies, and industry knowledge out there can be quite a challenge.

This event will look at the most up to date changes including the introduction of the new work life balance bill, menstrual leave, workplace disclosures, mental wellbeing and so much more. Feedback on our HR conferences have been overwhelmingly positive, and this upcoming event is shaping to be our biggest and most important yet.

We encourage you to get involved and ask questions throughout the day, to really get the most out of the event.
