

# The #1 digital rental solution for car dealers.

The screenshot shows a software interface for managing car bookings. At the top, there are filters for 'Eigentümer' (Owner), 'Demo 2', 'Name', 'User', 'Vehicle', and 'Cancelled' status. Below this is a 'Bookings' section with a table showing vehicle availability from Monday 13/03 to Sunday 20/03. The table includes columns for 'Vehicle', 'Car (8)', 'Mo 13/03', 'Tu 14/03', 'We 15/03', 'Th 16/03', 'Fr 17/03', 'Sa 18/03', and 'Su 19/03'. Each row represents a vehicle with its license plate and a list of bookings. A pink button in the center of the interface says 'Explore solution'.

Damage checks

Fleet management dashboard

ID & Driver's license control

Request a demo

Customer stories

## Customer Story Highlight **D'Ieteren Centers**

### The challenge

D'Ieteren Centers Zaventem had some vans that were barely used. They wanted to monetize these vans by renting them out to people who need a van for a very short period of time only without additional work for the staff e.g. administration, damage filling or key handling.

### The MyMove Solution

The 100% digital and hassle-free rental process is what makes MyMove the go-to solution. DCZ can make an extra buck, without taking on extra work. Also the end-user benefits greatly from a paperless and 24/7 available van rental service.
