## Glossary of Standardized Payment Account Services

Term	Definition	Corresponding Fee
Account management	The account provider manages the payment account opened in the name of the customer.	Annual Account Fee (company investors only)
Credit transfer – SEPA	At the customer's instruction, the account provider transfers money from the customer's account to another account. Euros are transferred to accounts opened in SEPA countries.	Credit transfer – SEPA (0 EUR)

## Notes

<sup>1</sup> Business Angel (BA) and Premium individual investors are exempt from the Investment Fee as part of their tier benefits. The Investment Fee covers the costs of identity verification, appropriateness assessment, and investment limit checks required under Regulation (EU) 2020/1503.

<sup>2</sup> Performance Fee is charged only upon the occurrence of an exit event, defined as: (i) sale or transfer of the issuer's shares; (ii) initial public offering (IPO); (iii) share buyback by the issuer; or (iv) liquidation and distribution of proceeds. The Performance Fee is calculated on net capital gains (proceeds received minus original investment amount). No Performance Fee is due if the investor does not realize a gain.

<sup>3</sup> Standardized term: Credit transfer – SEPA, as defined in the Glossary of Standardized Payment Account Services.

<sup>4</sup> Unlike individual investors, all company investors – regardless of tier (Standard, BA, or Premium) – are subject to the Investment Fee due to enhanced due diligence requirements applicable to legal entities under AML/KYC regulations.

<sup>5</sup> Standardized term: Account management, as defined in the Glossary of Standardized Payment Account Services. The Annual Account Fee covers the ongoing costs of enhanced KYC/AML verification and payment account maintenance for company investors. Risk classification (Low, Medium, High) is determined at onboarding based on regulatory risk assessment.

<sup>6</sup> The Success Fee becomes due only upon successful closure of the crowdfunding campaign. If the campaign does not reach the minimum threshold and is cancelled, no Success Fee is charged.

<sup>7</sup> The Ongoing Annual Fee covers the Operator's costs for post-campaign services including: administration of investor register (via the Mandate Agent), annual financial reporting facilitation, regulatory compliance monitoring, shareholder communication management, and corporate governance support. The fee is calculated on the total funds raised in the campaign and is payable annually for the duration of the mandate agreement.

<sup>8</sup> The Early Adopter Programme is a one-time promotional programme limited to the first 300 investors who register on the platform. Benefits are non-transferable and apply per individual investor account.

<sup>9</sup> Credit transfers via SWIFT (non-EUR or outside EEA) are free to the investor. Underlying provider costs (€12–15 per transaction) are absorbed by Growceanu. Investors are encouraged to use SEPA bank transfers where possible.
