Experience

Premise Data, Product Designer

San Francisco, 2021 - 2024

- Worked on over 20 projects focused on growth and productivity for Premise's Android and iOS apps used in 146 countries and 38 languages.
- Created a map feature that indicates submitted locations and highlights existing ones, which reduced duplicate data by 45% and increased savings significantly.
- Built a raffle feature that yielded a 70% reduction in weekly operational costs for survey tasks.
- Designed tracking bonuses to boost user engagement and increased task completion rates by 32%.
- Optimized the IA and visual design of the profile page for better usability and clarity including user account deletion flow for GDPR compliance.
- Established a color accessibility chart for Premise design colors that maintains standards and streamlines the design process.

Holimart, Product Designer

Berkeley(Remote), 2021 - 2021

- Redesigned an E-commerce website to provide local businesses with a platform for selling environmentally friendly products and services.
- Conducted user testing to ensure a seamless user experience with diverse age groups of consumers.

Andrew Y Dental office, Product Designer

San Francisco, 2019 -2019

- Designed a website and mobile app to enable patients to make reservations and complete intake forms before clinic visits.
- Incorporated user-friendly features to enhance the patient experience and reduce administrative burdens for the clinic by 80%.
- Achieved a 90% comprehension rate among individuals aged 21 to 58 during final user testing.
