

Conferences and Workshops

The Transforming Climate Action program is hosting a series of conferences and workshops to help bring the research community together to connect, plan, and collaborate on current and future projects.

Here is a timeline of all the events that are taking place over the course of the program:

TCA Connectivity Workshop

Université Laval

April 28-May 2, 2025

This [workshop](#), hosted by Université Laval, brought TCA researchers and staff together in person to coordinate research plans across the multidisciplinary fields of natural, social, humanities, and health sciences.

TCA Connection Event

September 17-18, 2026

In person at each TCA institution (Day 1); Virtual town hall (Day 2)

This is a hybrid event for researchers to connect and plan for Phase 2 and support the cross LRP integration.

LRP 1.1 + Workshop

December 11, 2026

Halifax Convention Centre

Check back soon for more details.

TCA Dialogue Workshop

May 3-7, 2027

Rimouski Conference Centre

Expanding on the Connection Event, this workshop is designed to foster in-depth exchanges and interdisciplinary co-creation.

International Workshop

May/June 2028

Memorial University

Check back for more details.

Transforming Climate Action

Researchers Workshop
May/June 2029
Virtual

Check back for more details.

Final Conference
February 2030
Dalhousie University

Check back for more details.
