

**For the 2026 season, Cheam Fishing Village will be open for private group bookings and events only, and will not be available for public camping or individual boat launches.**

**We recognize this is a shift from previous seasons, especially for those who have made this a yearly tradition. This campground has long been a staple in Agassiz, and we don't take that lightly. We have meaningful plans for the future and are looking forward to sharing more as those come together.**

**We are taking this season to step back and be intentional about the next phase. This time will allow for planning and the improvements needed to bring the campground back in a way that reflects both the place itself and the community it belongs to.**

**The goal is to reopen in Spring 2027 with an improved and more complete experience for guests.**

**If you are interested in booking the site for a private group or event this season, please email [bookings@cheamfishingvillage.ca](mailto:bookings@cheamfishingvillage.ca) and our team will be in touch.**

**For those who currently have campsites on temporary holds, these will be released. We appreciate your understanding and look forward to welcoming you back next season and beyond.**
