

## CISCO CATALYST CENTER TEST DRIVE

### Service Overview:

At Netnology, we specialize in Cisco Catalyst Center implementation services to expedite the adoption of Cisco Catalyst Center. This test-drive offer will help customers develop a baseline understanding of Cisco Catalyst Center Solution and its value proposition. This up to 4-hour session will demonstrate use-cases related to Cisco Catalyst Center. It will also highlight the ease of configuration and manageability of this integrated solution. This test-drive is built and delivered by subject matter experts (SME) who have extensive experience in working with Cisco Catalyst Center.

### Solution Overview:

Cisco Catalyst Center is the foundational controller and analytics platform at the heart of Cisco's intent-based network. It supports the expression of intent for multiple use cases, including base automation capabilities, fabric provisioning, and policy-based segmentation in the enterprise network. Cisco Catalyst Center brings context to this journey through the introduction of Analytics and Assurance by providing end-to-end visibility into the network with full context through data and insights. The key features of Cisco Catalyst Center include:

- Support Intent-Based Networking
- Simple and Fast Network Management
- Increased Network Uptime
- Effective Monitoring
- Lower Operation Costs
- Future Network Optimization
- Network Transform with New Technologies
- Embedded Security

### Service Benefits:

Netnology has a team of world-class engineers who specialize in Cisco Catalyst Center solution and are passionate about customer success. Netnology will partner with you to provide guidance on:

- Design the network using intuitive workflows.
- Define user and device profiles that facilitate secure access and network segmentation based on business needs.
- Policy-based automation to deliver services to the network based on business priority and to simplify device deployment.

Assure network performance with real-time and historical data analytics, to provide actionable insights and detect problems before they happen along with guided remediation actions

## Service Scope:

As part of this up to 4-hour Test Drive engagement, Netnology will provide the following services:

- Solution Overview
- Operational Insights
  - Overall Health of Network Devices and Health Scores for Wired and Wireless Clients
  - AI Driven Data
- Client Health
  - Overall, Client Health
  - Client 360
  - Intelligent Capture
- Device Health
- Issues Dashboard
- SWIM Update
- Wi-Fi Dashboard

## Target Audience:

This service is designed for Pre and Post sales professionals selling, configuring, deploying, and managing the Cisco Catalyst Center.
