Savings are hiding in your claims

Goodbill leverages A.I., provider notes, and 501(r)/ financial assistance discounts to maximize plan savings on every claim. The best part? It all happens before you pay the provider.

41% of claims
qualify for 501(r)/
financial assistance

47% of claims
contain errors

Maximize savings for plans and members

Instant 501(r) eligibility checks

Tap into 501(r) financial assistance discounts.

Our data shows over 40% of members qualify for discounts that can reduce billed amounts and waive up to 100% of patient responsibility. We lead the member through the entire application process.

EHR-enhanced claim reviews

Cross-check provider's notes for bigger savings.

Our licensed clinicians check provider notes from the member's electronic health record, which we get digitally from 2,500+ hospitals, to review every claim for errors and unnecessary care.

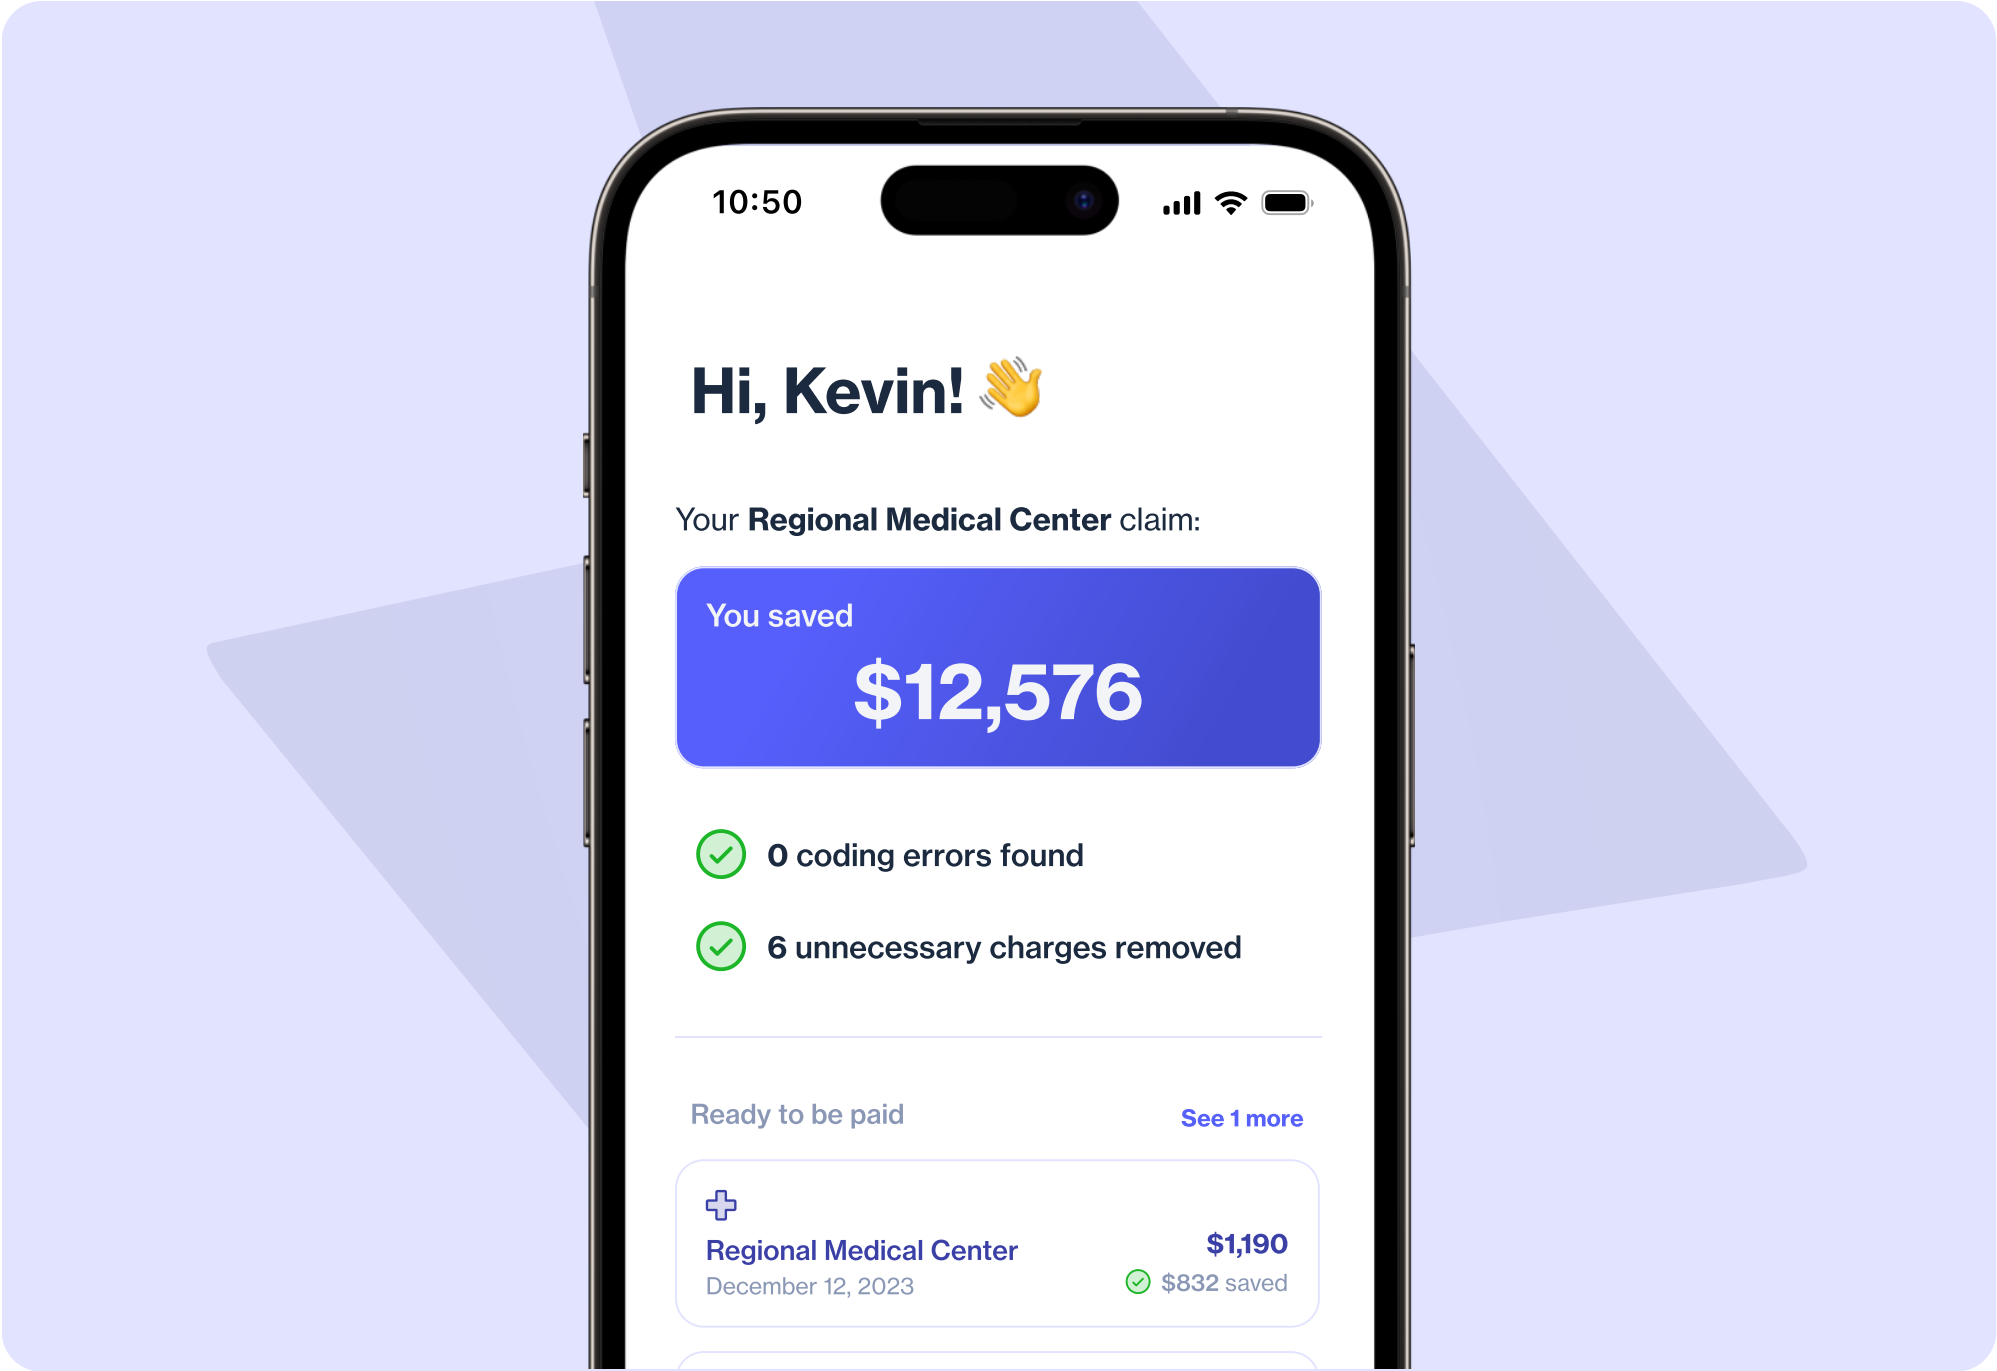

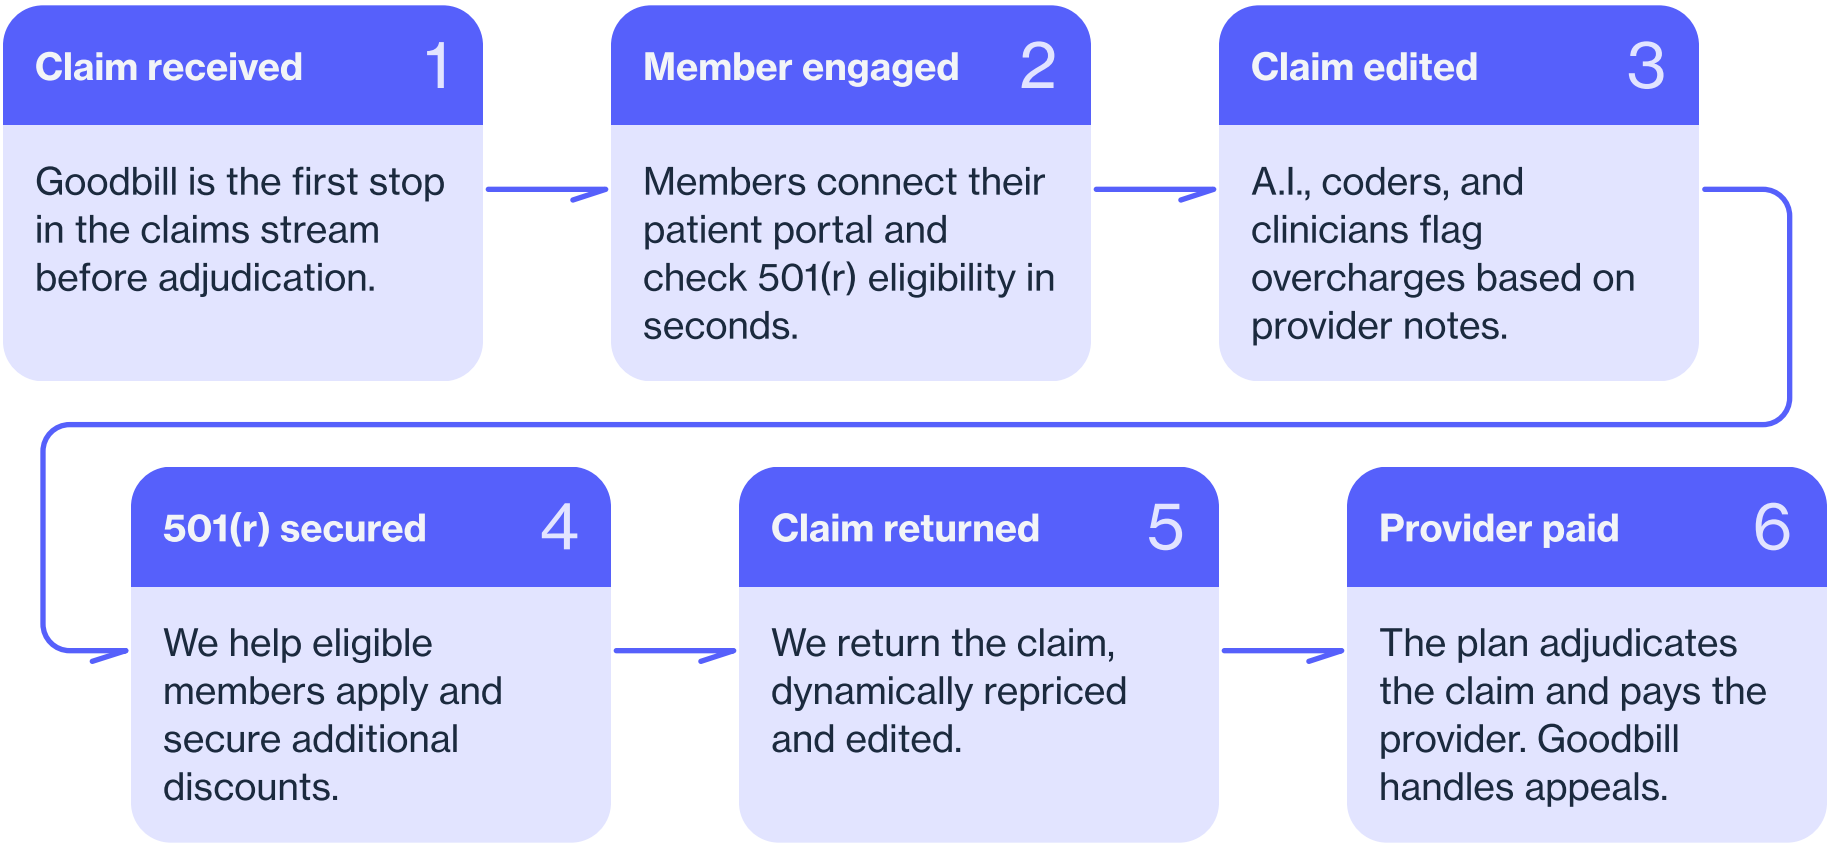

World-class member service

Provide members with round-the-clock support.

Our member concierges engage and guide members through every step of the process, and are available by phone, SMS, email and chat. We maintain an all-time CSAT of 99.

How Goodbill saves money

Here's how the Goodbill pre-payment flow works:
