

SK5 Series Speaker Cable Specification

SK5 Series cables are made with Whirlwind W12GA, two-conductor 12GA speaker wire and terminated with a Neutrik NL4FC connector on each end.

Wiring is to 1+ and 1- pins of the NL4 connector.

Stock lengths are 10, 25, 50, and 100 ft., custom lengths available on request.

Model number is given by SK5 + Length + G12. For example: SK525G12.
