Innovation in Construction Technology

Application Form

This award recognises pioneering use or development of technology that is transforming the construction industry. It celebrates innovations that enhance efficiency, accuracy, safety, and sustainability, setting new benchmarks for how projects are delivered and managed.

Please note your application should be no more than 10 pages (5 double sided sheets) and a maximum of 2500 words. Applications should be emailed to info@irishbuildinganddesignawards.com Or uploaded to the following link - Innovation in Construction Technology clearly stating your company name.

Summary	In no more than 250 words summarize why your organisation / technology deserves to win this award.
Innovation & Technology	Clearly describe the new or significantly enhanced technology/service/process—whether it's software, machinery, construction methods, or internal workflows. Explain what it does, how it works, and why it's considered innovative?
Objectives	Clearly define the purpose behind introducing the innovation, what issues it addresses - productivity, quality, safety, cost, efficiency, sustainability, etc.
Product Development	Detail the roles and collaboration of staff or project teams in implementing and delivering the innovation. Demonstrate crossdisciplinary teamwork (e.g., R&D, engineering, site teams).
Sustainability	Summarise the benefits of your technology to sustainability - Energy efficiency improvements, circular economy use, use of renewables, reduction in emissions etc.
Impact on the Industry or End Users	Provide evidence of performance improvements (e.g. time savings, cost reductions, error avoidance), Quality or safety improvements, Sustainability improvements (e.g. waste or carbon reduction)
Supporting Statements & Testimonials	Include testimonials, case studies, client endorsements, charts, photos, or other documentation that strengthen your submission.

Scoring (100 Points Total)
