

CANZAC® IGROUP

Improving the performance of concrete worldwide®

CANFORM®

CANFORM® formboards are the best choice for footpaths, driveways and all other straight and radius forming applications.

Use our Dura-Pins and Camlocks for ease of set up and strip down.

FEATURES / BENEFITS

- **Fast setup & strip down time**
- **Very high reusability**
- **25% lighter than timber**
- **Create unique formwork designs**
- **Achieve a superior finish, every time**
- **Stackable to create a higher form**

Create amazing formwork designs - simply stake out your curve and bend the boards around.

SET UP

CANFORM® is a Game-changer for construction projects.

Adjusting is a breeze - unlock with one hand, raise or lower and re lock in seconds. Say goodbye to hammering nails. CANFORM® streamlines the process.

Plus, clean up is simple. Just wipe down with a damp cloth. Its reusability makes it cost effective.

It is extremely durable and offers added flexibility to accommodate a range of requirements and allows for precision construction

MEGA BENDS, MINIMAL EFFORT

FASTER | STRONGER | BETTER
