

TEBARI™ BATTLE SYSTEM

Temari is a brand new robotics combat system. With 20 different mechs to choose from and infinite ways for players to make it their own.

Temari has been in stealth development for the last 9 years. We are just now sharing its existence.

- **Temari Battle System** is the world's first mixed reality robot battling game
- It brings AI to the living room floor and makes the real world *magical*
- **Temari is a videogame- in real life**

Single Player, local multiplayer, online play and even team battles are all playable in Reality, AR or a combination of both.

Temari's webcomics and the Temariverse are penned by respected UK SF author **Philip Palmer**. Devs are toy, game, computer vision and AI veterans. We're proudly indie!

Game releases Q2 2026. Toy Releases Q4 2026

Seeking press exposure and player feedback!
