When specifying the receipt message you should indicate the field where the message should be placed.

If you have a lot of terms and conditions for coupons, you can place these in the fields indicated, but it is best to place a message such as *'*Conditions apply, see in store terms & conditions signage or discuss with a staff member'* when running a promotion or some type of coupon message.

Coupon Messages

There can be up to six coupons dispensed for any transaction. These are printed at the bottom of the receipt.

Coupons only print after a successful transaction. You can specify the coupon offer on two lines.

A coupon will print on both withdrawals and balance enquiries.
