Manage IP Address

Off-site access restrictions by IP address

The screenshot displays the EAGLE i360 Venue Configuration interface. The top navigation bar includes the EAGLE i360 logo, a menu icon, and links to Eagle i360 Demo, Members, Gaming Machines, Campaigns, Calendar, Shift Report, Tasks, and a search bar. The user is logged in as Matthew Zhu (Demo User) under the Administration menu. The main section is titled 'Venue Configuration' and contains a 'Venue Properties' row with five tiles: Manage Settings, Manage IP Addresses (highlighted with an orange border), Manage Dashboards, Manage Notifications, and Manage Comp Budget. Below this is the 'Venue IP Addresses' section, which features a text input field labeled 'ADDRESS', an 'Add' button, and a table with the message 'No items to show...'. A callout box with an orange border and arrow points to the 'Add' button, containing the text 'Record IP addresses of your venue to limit access for users'. Another callout box with an orange border and arrow points to the 'Current IP Address: 111.220.44.122 (Blocked)' status, containing the text 'Populate your IP address to the text field'. The interface also shows a 'Return' button and a '0 records' status.

Manage IP Addresses

Record IP addresses of your venue to limit access for users

Populate your IP address to the text field

- The IP Address Management tool is a table of recorded IP addresses that belong to your venue
- User access can be limited to on-site use only. It is advised not to edit these fields without consulting your IT team or EAGLEi360 Support

Manage Dashboards

Customise your dashboards to present real-time venue data on smart TVs or PCs or the EAGLEi360 mobile app, giving your team a clear and instant overview of the venue's performance

Step 1: Open the browser on TV or PC and visit <https://dashboard.eaglei360.com.au/> to get a dashboard identifier code

Manage Dashboards continued

Step 2: Create and claim an Infoboard

Step 3: Add views to the Infoboard

The screenshot shows the Eagle i360 dashboard management interface. At the top, a navigation bar includes the Eagle i360 logo, a menu icon, and various navigation links: Eagle i360 Demo, Members, Gaming Machines, Campaigns, Calendar, Shift Report, Tasks, Communications, Safestakes, and a search bar. The user is logged in as Matthew Zhu (Demo User) in the Administration section.

The main content area displays a dashboard configuration for 'Dashboard: (99112999)'. It includes a 'Description' field (highlighted with a yellow box and an arrow pointing to it from the text 'Add a description for the Infoboard (e.g. location of the screen)'), an 'Active' checkbox (checked), and a 'Save' button. Below this is a table with columns: ORDER, TYPE, DURATION, and IS ACTIVE. The table contains two rows of data: one for 'Hot Machines' with a duration of 60 and 'True' for 'IS ACTIVE', and another row with 'True' for 'IS ACTIVE'. A 'Return' button is located at the bottom left of the table.

An 'Add View' modal is open in the center. It has a 'Dashboard Identifier' field and a 'Select View Type...' dropdown menu. The dropdown menu is open, showing a list of view types: Select View Type..., Important Players, Hot Machines, Hot Players, Max Live Jackpots, Live Overview, Two Column View, Gaming Overview, Live Floor View, Text Board, POS Overview, What's On Today, and Machine Faults. A 'Create View' button is at the bottom right of the modal. An arrow points from the text 'Select a view' to the dropdown menu.

Annotations on the screenshot include:

- 'Add a description for the Infoboard (e.g. location of the screen)' pointing to the Description field.
- 'Add a new view' pointing to the '+' icon in the top right corner of the dashboard configuration area.
- 'Select a view' pointing to the 'Select View Type...' dropdown menu.

- Views showcase different aspects of venue data
- You can add multiple views to the dashboard, set them to rotate, or arrange them in a two-column layout for a more comprehensive display

Manage EAGLEi360 Users

Manage the user's permissions and reset the temporary password

The screenshot shows the EAGLE i360 User Access management interface. The top navigation bar includes the EAGLE i360 logo, a hamburger menu, and links for Eagle i360 Demo, Members, Gaming Machines, Campaigns, and Calendar. The user is logged in as Matthew Zhu (Demo User) under the Administration section. The main content area is titled "Eagle i360 User Access" and features three cards: "Manage Users" (highlighted with a yellow box), "Manage Permission Groups", and "Manage Daily Email Reports". A sidebar on the right lists various management options, with "My Venue" highlighted. Below the cards is the "Venue Information" section, which contains the "User Manager" form. This form includes fields for Email (Test@test.com.au), First Name, Last Name, Account Status (Active), User Level (Staff Member), and Permission Group (Full Access). There are also checkboxes for App Access, IP Limited, and MFA Enabled. A "Save" button is at the bottom of the form. To the right of the form, there are fields for "User Since" (09-10-2024 00:09:46), "Last Logged In", "Welcome Email Sent", and "Temporary Password" (oQXQ3). A "Send" button is next to the "Welcome Email Sent" field, and an "Override Password" button is next to the "Temporary Password" field. A "Set New Temp Password" field is also present. Annotations include a yellow box around the "Manage Users" card, a yellow box around the "My Venue" sidebar item, a yellow box around the "User Manager" form, and a yellow box around the "Send" button. A blue box on the left explains user levels, and a blue box at the bottom explains the App Access, IP Limited, and MFA Enabled options. A blue box on the right explains the "Send" button.

User Level:

Venue Manager: full access to all features

Staff Member: limited access based on assigned permission group

App Access: users can access the mobile app

IP Limited: users can only access EAGLEi360 when on a registered IP address

MFA Enabled: multi-factor authentication

Send a welcome email to the user with an initial password

Manage Staff

Manage staff members by recording comments for them and assigning tasks to specific departments

The screenshot shows the Eagle i360 'Manage Staff' interface. The top navigation bar includes 'Eagle i360', 'Eagle i360 Demo', 'Members', 'Gaming Machines', 'Campaigns', 'Calendar', and a search bar. The user is logged in as 'Matthew Zhu (Demo User)'. The 'Venue Information' section contains four cards: 'Manage Areas', 'Manage Staff' (highlighted with a yellow box), 'Manage Departments', and 'Manage Fin'. A dropdown menu for 'My Venue' is open, showing options: 'Event Management', 'Exclusion Register', 'Users', and 'Multi-Venue Overview'. A callout box points to a plus sign icon with the text 'Click the plus sign to add a staff member'. Below the cards, the 'Venue Staff' section has a 'Show Inactive Staff' checkbox, search filters for 'Identifier' and 'First Name', and a 'Reset' button. A callout box points to an upload icon with the text 'Click the upload sign to upload a bulk staff list through an CSV file'. The main table lists staff members with columns for Identifier, First Name, Last Name, and Email. A 'Details' modal is open for the staff member with Identifier '0710', showing fields for First Name, Last Name, Email, Linked User, and an 'Is Active' checkbox. A 'Comments' section below the details shows a table for shift reports. At the bottom, a 'Staff Merge Tool' allows merging a staff member with another selected from a dropdown. A final callout box at the bottom right states: 'Click on any staff member to edit their details, view comments against them, or link them to an EAGLEi360 user'.

Review and create event types for events and campaigns, which will determine the ROI report calculation

Review and create event types for events and campaigns, which will determine the ROI report calculation

Event types are a list of event categories that determine how you want to measure ROI

Click the + symbol to add a new event type

To edit or create a new event type, you will need to enter the name, select an icon, and a suitable event reporting method (determine ROI calculation)

Activity

This reporting method will track all activity on the event's trading date for members who are listed within the event. Members must be added to the event manually.
Ideal for tracking ancillary spend for club activities like poker, mahjong, etc.

Event Reporting Methods of Event Type

GAMING	POS	MEMBERS
Gaming Invitational <ul style="list-style-type: none"> Classify a member as redeemed if they have any gaming turnover during the event period The member must be pre-entered into the event Ideal for gaming promotions targeted at a specific list of members 	PLU Purchase Invitational <ul style="list-style-type: none"> Classify a member as redeemed if they purchase a product from the selected list of PLUs managed below The members must be pre-entered into the event Ideal for POS promotions targeted at a specific list of members who need to purchase a specific product 	Activity <ul style="list-style-type: none"> Track all activity on the event's trading date for members who are listed within the event Members must be added to the event manually Ideal for tracking ancillary spend for club activities like poker, mahjong, etc
Gaming Turnover <ul style="list-style-type: none"> Automatically add members to the event if they have gaming turnover in the event period Members will be automatically added to the event list based on their gaming turnover Ideal for daily gaming promotions to track ongoing ROI and patron interest in the promotion 	PLU Purchase <ul style="list-style-type: none"> Automatically add members to the event if they purchased a product from the selected list of PLUs managed below during the event period Members will be automatically added to the event list based on their POS transactions Ideal for tracking ancillary spend of promotional food offers 	Redemption <ul style="list-style-type: none"> Track all activity for members who have been marked as redeemed The members must be pre-entered into the event and manually marked as redeemed Ideal for tracking redemption-based promotions
EVENTS		KIOSKS
Period Summary <ul style="list-style-type: none"> Automatically add all members with Gaming or POS activity during the event period Members will be automatically added to the event Ideal for tracking total activity over an extended period 	Spend in Location Invitational <ul style="list-style-type: none"> Classify a member as redeemed if they have any POS transactions within the selected locations during the event period The members must be pre-entered to the event Ideal for tracking invited members who attended an event within your venue 	Kiosk Swipe <ul style="list-style-type: none"> Automatically add members who swiped at a kiosk to the event Only available for Odyssey and Ebet venues
Period Summary Invitational <ul style="list-style-type: none"> Classify an invited member as redeemed if they have Gaming or POS activity during the event period Members must be pre-entered to the Campaign Ideal for tracking total activity 	Spend in Location <ul style="list-style-type: none"> Automatically add members to the event if they have any POS activity in the selected list of areas managed below during the event Members will be automatically added to the event list based on their POS transactions Ideal for tracking entertainment ROI and ancillary spend or regular club events like bingo 	Kiosk Swipe Invitational <ul style="list-style-type: none"> Classify a member as redeemed if they have swiped at a kiosk during the event period Only available for Odyssey and Ebet venues
Non-ROI Event <ul style="list-style-type: none"> This reporting method will not track any members or activity against the event Ideal for categorising additional events in the event calendar 		Wymac Promotion <ul style="list-style-type: none"> All members will be able to redeem these events via the Wymac Kiosk Wymac Promotion must be linked to these events via the Wymac Hub
		Wymac Promotion Invitational <ul style="list-style-type: none"> Only invited members will be able to redeem this type and will redeem via the Wymac Kiosk. Wymac Promotion must be linked to these Campaigns via the Wymac Hub

Manage Event Categories

Assign Event Categories when you create events/campaigns. Event Categories are useful when you run Event Summary Reports, which consolidate ROIs for the same Event Category

The screenshot displays the Eagle i360 CRM Configuration interface. The top navigation bar includes the Eagle i360 logo, a hamburger menu, and various navigation links: Eagle i360 Demo, Members, Gaming Machines, Campaigns, Calendar, Shift Report, Tasks, Communications, Safestakes, and a search bar. The user is logged in as Matthew Zhu (Demo User). The main content area is titled 'CRM Configuration' and features five icons: Manage Tiers, Manage Relationships, Manage Interests, Manage Tags, and Manage Event Types. The 'Manage Event Types' icon is highlighted with a yellow border. Below this, the 'Event Categories' tab is selected, showing a table of event categories. A callout box with a yellow border and a blue background contains the text 'Click the + sign to add a new event category' with an arrow pointing to a plus sign icon in the top right corner of the table.

2. Open the downloaded Excel import template and fill in the non-member contacts on each line. You must include the first name and either the email address or mobile number for each non-member. Multiple labels can be separated by semicolons.

3. After preparing the import file, return to the Import Non-Member Contacts page to upload the file.

CRM

Logging Member Information

The screenshot displays the Eagle i360 system interface, specifically the member profile page. The top navigation bar includes the Eagle i360 logo, a menu icon, and several navigation links: Eagle i360 Demo, Members, Gaming Machines, Campaigns, Calendar, Shift Report, Tasks, and a search bar. The main content area is divided into several sections, each with a callout explaining its function:

- Status:** A callout points to the Status field, stating: "Document when a patron is on holiday or significant information to help with reporting".
- Relationships, Significant Dates, Interests, and Tags:** A large callout box highlights these four sections, stating: "Record relationships, significant dates, and interests for targeted campaigns" and "Assign tags to the member manually, or when the member joins events".
- Comments:** A callout points to the Comments section, stating: "Record the members comments and review them via the Shift Report".
- Safestakes Logs:** A callout points to the Safestakes Logs section, stating: "Review the patron's Safestakes entries and record comments".
- Watch Member:** A callout points to the Watch Member button, stating: "Watch the member during a period. Watched member's POS and gaming data will be displayed on the dashboard".

The right sidebar displays member details for a specific patron:

- Patron ID:** 173978400001
- Gender:** Female
- Join Date:** 6/3/2008
- Expiry Date:** 31/12/2023
- Street:** 62 Hgimvepi Erimai
- Suburb:** PEYEME
- Mobile:** 489940881
- Email:** (partially visible)

Creating a Campaign continued

Step 2: Setting email template and subject

The screenshot shows the 'Email Builder' step in a campaign creation process. The interface includes a top navigation bar with 'Schedule', 'Email Builder', 'Message', 'Members', and 'Review'. The 'Email Builder' section contains a 'Select Template' dropdown with a '+ Create New Template' button. Below this is a 'Create New Email Template' section with a 'Template Name' input field and a 'Create Template' button. To the right is a 'YES MAIL' preview area with 'Inbox', 'Unread', and 'Sent' tabs. The main preview area shows 'Subject:' and 'From: Demo@ei3. au' fields, followed by a large 'Email Template Preview' area. At the bottom, there are 'Preview Badge #' and 'Test Email Recipient' input fields, and 'Refresh Preview' and 'Send Test Email' buttons. Callouts highlight key features: 'Select an existing email template or create a new one' points to the 'Select Template' dropdown; 'Edit the email template with the template builder' points to the 'Edit Template' link; 'Edit the email subject' points to the 'Subject:' field; and 'Display the value of merge fields based on entered badge number' points to the 'Preview Badge #' field.

Select an existing email template or create a new one

Edit the email template with the template builder

Edit the email subject

Display the value of merge fields based on entered badge number

Merge field - is a placeholder that dynamically inserts personalised data into emails based on information stored in Eagle i360. When the email is sent to recipients, the merge field is replaced with the actual data relevant to each individual.

Building an Email Template

The screenshot shows the Eagle i360 email template editor. At the top, a dark header bar contains icons for device preview (desktop, tablet, mobile), a text input for 'Template Name: Showcase 1 - Birthday EDM', and 'Save' and 'Exit' buttons. A callout 'Edit the template name' points to the template name field. Below the header, a preview of a birthday email template is shown, featuring gold balloons and the text 'HAPPY BIRTHDAY!'. A callout 'Preview template on different device views' points to the device icons. A 'Merge Fields' dropdown menu is open over the email content, listing fields like 'Venue Name', 'First Name', 'Last Name', 'Badge', 'Tier Level Name', 'Reward Points Balance', 'Merge Field Example', 'preferred first name', 'reward ticket', 'rewards', and 'rewards point'. A callout 'Insert merge fields into the content to enable EAGLEi360 to dynamically personalise the content for each recipient' points to this menu. On the right, a sidebar contains various email components like '2 Columns', '3 Columns', 'Text', 'Button', 'Image', 'Divider', 'Spacer', 'Navbar', and 'Navbar Link'. A callout 'Edit styles for the selected component' points to the top of this sidebar. Another callout 'Drag and drop a component to the email template' points to the 'Image' component in the sidebar. A 'Save the template' callout points to the 'Save' button in the top right.

***Merge field** - is a placeholder that dynamically inserts personalized data into emails based on information stored in Eagle i360. When the email is sent to recipients, the merge field is replaced with the actual data relevant to each individual.*

Managing Communication Subscription

You can manage a member's SMS and Email subscription status on the CRM page

Opt Out Email ?

Opt Out SMS ?

SMS History

Send SMS

Toggle between opt-in and opt-out status for Email and SMS communications.

Important Note: If a member has opted out through the gaming system, you must update their preferences in both Eagle i360 and the gaming system before communications can be sent. Enabling opt-in status in Eagle i360 alone is not sufficient when a member is opted out in the gaming system.

Set thresholds to automatically trigger alerts for potential money laundering (AML) activity. EAGLEi360 will analyse EGM cash events, such as withdrawals, maximum bets, session ending balances, and winnings, to detect suspicious patterns

Safestakes & AML Alerts

When a patron's activity exceeds any Safestakes or AML thresholds, an alert is triggered. The CLO or RGO should then interact with the patron to investigate the case and record both their actions and the patron's behaviors.

Safestakes

Manually log a suspicious/problematic patron activity and behaviour

Filter Safestakes logs by date, tier, category, and level

HR Management

Managing Roster Areas

Ensure that you accurately associate the roster areas with the EAGLEi360 areas and configure the wage targets accordingly..

The screenshot displays the Eagle i360 Admin interface. At the top, a dark blue navigation bar contains the logo, a hamburger menu, and links to Eagle i360 Demo, Members, Gaming Machines, Campaigns, Calendar, and an Administration dropdown menu. The dropdown menu is open, showing options like My Venue, Event Management, Exclusion Register, Users, and Multi-Venue Overview. Below the navigation bar, the 'Venue Information' section features four cards: 'Manage Areas' (highlighted with a yellow border), 'Manage Staff', 'Manage Departments', and 'Manage Fin'. The 'Manage Areas' card is selected, leading to the 'Venue Areas' section. This section includes a 'Show Inactive Areas' checkbox and a list of areas: Gaming, Bistro, Main Bar, Sports Bar, and Reception. A blue callout box with white text says 'Click the area associated with the HR system'. Below the list, there are 5 records and a 'Return' button. The 'Gaming' area is selected, showing details like 'Order: 1', 'Is Gaming Area' (checkbox), 'Report on Covers' (checked), 'Report Covers as All Day' (checkbox), 'Has BOH' (checkbox), 'Wages Target: 0%', and 'Is Active' (checked). There are 'Save' and 'Return' buttons at the bottom. To the right, the 'POS Terminals' section shows a list with 'Gaming Mobile Terminal'. Below that, the 'Roster Areas' section has a list of roster areas. A dropdown menu is open, showing a search bar and a list of roles, with '/Admin/MarketingManager [Not Assigned]' highlighted. An 'Assign' button is also visible.

Report by Member Filters

The screenshot displays the 'Member Filter' interface with several annotations explaining its features:

- Member Filter:** A section at the top left with a star icon and a blue star, indicating it is a favorite. It includes a sub-header 'Member > Member Filter' and a description: 'Build custom Member Reports using a selection of filters.'
- Manage a member filter:** A callout pointing to the 'Rename Filter', 'Create New Filter', and 'Delete Filter' buttons.
- Operator condition:** A callout pointing to the 'Operator - AND' dropdown menu.
- Select a predefined filters and set up conditions:** A callout pointing to the 'Gaming - Turnover' filter configuration, which includes a value of '\$ 1000', a date range from '01-10-2024 to 13-11-2024', and a 'Time Filtering' section with days of the week.
- Add a label for member filter group:** A callout pointing to the 'Member - Birth Month' filter configuration, which includes a value of '11 months'.
- Add another condition group:** A callout pointing to the '+ AND' button at the bottom.
- Calculate the number of members who meet the conditions:** A callout pointing to the 'Calculate' button.
- Export results to Excel files:** A callout pointing to the 'Excel Export' button.
- Delete members:** A callout pointing to the 'Delete' button (trash icon) next to the '1,418 members' result.
- Calculate number of members in the filter(s) chosen:** A callout pointing to the 'Calculate' button.

Operator condition meanings:

AND – Both conditions are to be met

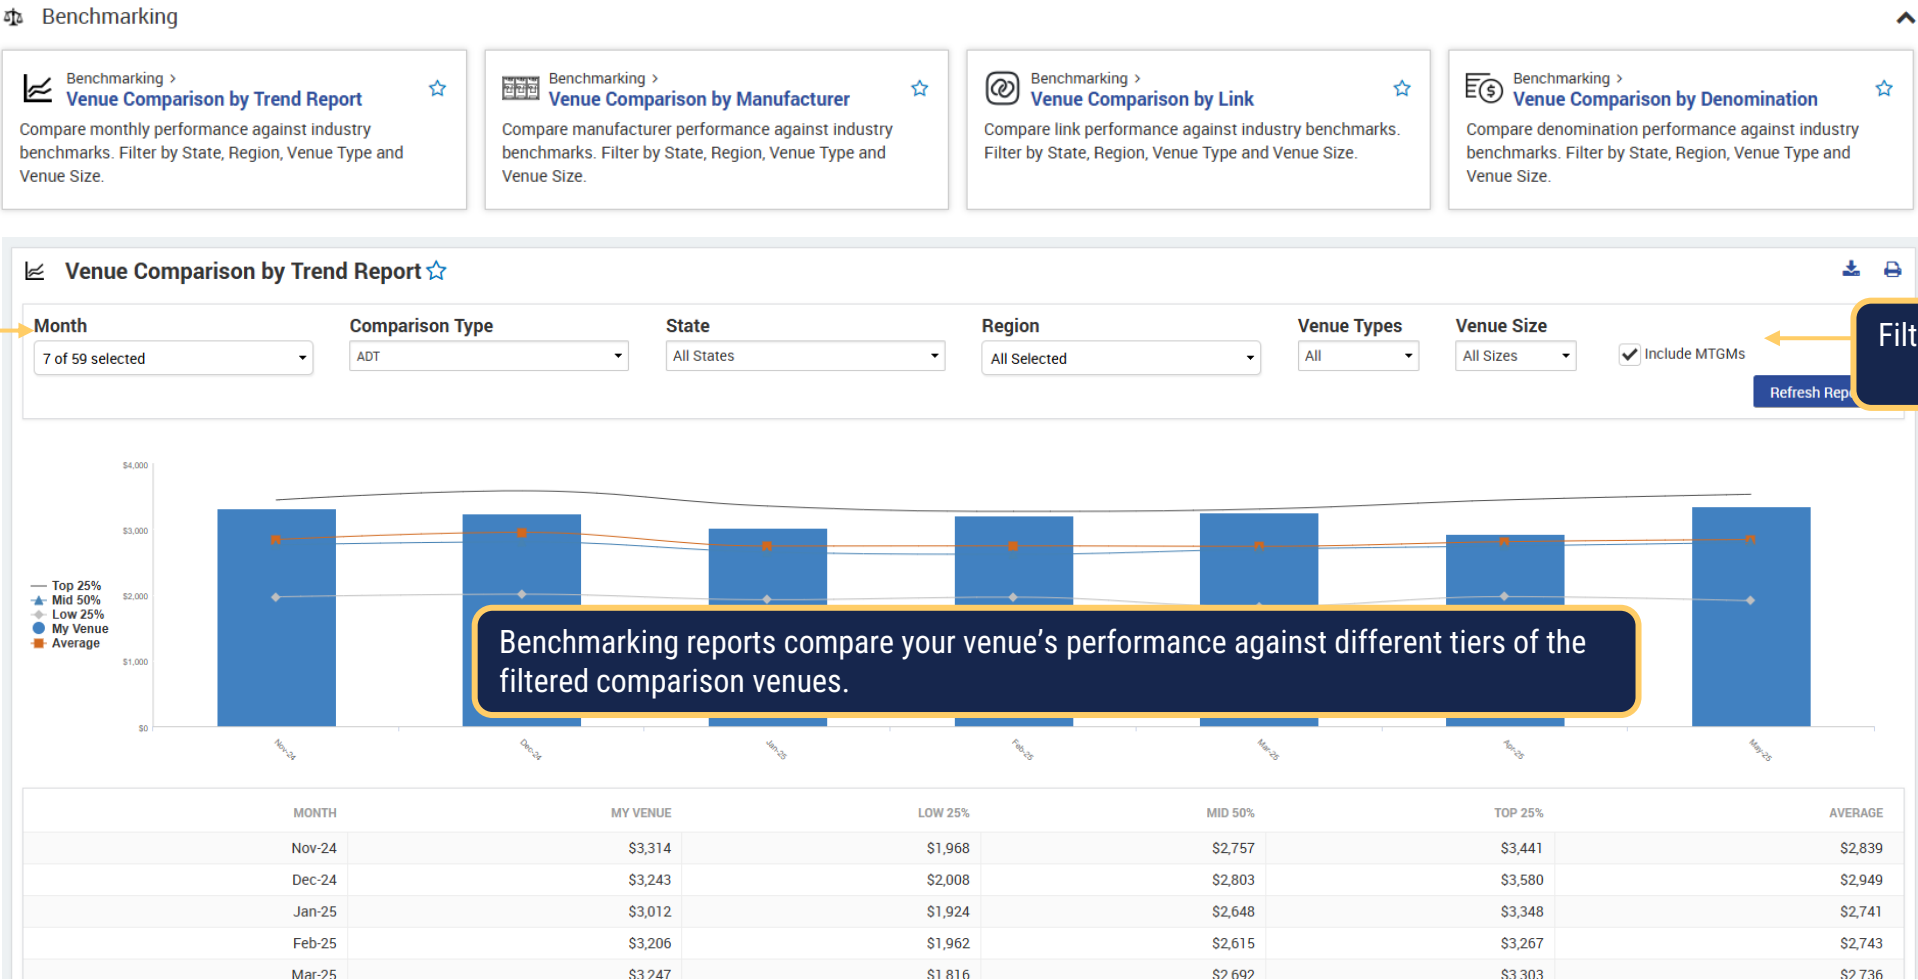

OR – Either condition is to be met

INCL – Include members meeting the condition

EXCL – Exclude members meeting the condition

Benchmarking Reports

We have introduced four benchmarking reports that enable you to compare your venue's monthly performance against industry benchmarks. Select a report and apply filters by state, regions (LGA), venue type and size to refine your comparisons.

Scheduled Reports

Scheduled Reporting Overview

Scheduled Reporting offers a variety of EAGLEi360 reports, that can be scheduled to be run at a later stage. It also allows for reports to be run periodically. E.G., daily, weekly, monthly. Reports will be saved in Eaglei360 for future use, and you will receive an email notification when a report is generated and available.
