

# BULK HIGH-SPEED DEPOSIT

THE **FASTER** WAY TO **BANK CASH**.  
DESIGNED FOR **PUBS & CLUBS**.

Built for high-volume environments, the Next Payments Bulk High-Speed Deposit validates and banks cash at speed. Used by itself or alongside a Cash Recycler, it delivers faster access to funds, enhanced security and improved cash flow.

## HOW THE BULK HIGH-SPEED DEPOSIT WORKS

- 1 Deposit Large Volumes, Fast**  
Notes of all denominations are deposited in bulk at speeds of up to 16 notes per second, dramatically reducing time spent handling cash.
- 2 Validate & Detect Counterfeits Instantly**  
Each note is automatically authenticated during deposit, helping protect your venue from counterfeit risk.
- 3 Secure High-Capacity Storage**  
Up to 15,000 notes are securely stored in a sealed canvas bag, allowing you to handle peak trading volumes with confidence.
- 4 Bank Funds When You Choose**  
Funds can be settled to the bank account of your choice, at any time, improving access to cash flow and reducing reliance on manual banking runs.
- 5 Simplify Reconciliation Across Departments**  
Multiple departments can be set up for clear allocation and tracking, with deposits remotely reconciled through Next Payments' Concilio software.
