NX DEPOSIT

next PAYMENTS

THE SMARTER WAY TO MANAGE CASH. DESIGNED FOR RETAILERS.

The Next Payments NX Deposit is a smart, secure cash deposit solution for retailers, instantly validating and securing cash at the point of deposit to your bank account, delivering real-time visibility and control from store level to head office.

HOW THE NX DEPOSIT WORKS

1. **Deposit Cash Securely**
   Cash is deposited into the unit, where it is instantly validated and securely stored - removing the need for manual counting.

2. **See Every Transaction**
   Each deposit is automatically recorded and made visible in real-time through onsite or cloud-based reporting.

3. **Integrated Banking**
   Our integrated banking solution streamlines processing, giving you same-day access to funds in your account.

4. **Reduce Handling & Risk**
   With fewer touchpoints, the risk of errors and losses are reduced, freeing staff to focus on customers.

5. **Manage Cash End-to-End**
   NX Deposit delivers a fully connected cash solution - from deposit and validation through to reporting, reconciliation, Cash in Transit and banking.

BULK HIGH-SPEED DEPOSIT

THE FASTER WAY TO BANK CASH. DESIGNED FOR BUSY CUSTOMER ENVIRONMENTS.

Built for high-volume environments, the Next Payments Bulk High-Speed Deposit validates and banks cash at speed. Used by itself or alongside a Cash Recycler, it delivers faster access to funds, enhanced security and improved cash flow.

HOW THE BULK HIGH-SPEED DEPOSIT WORKS

1. **Deposit Large Volumes, Fast**
   Notes of all denominations are deposited in bulk at speeds of up to 720 notes per minute, dramatically reducing time spent handling cash.

2. **Validate & Detect Counterfeits Instantly**
   Each note is automatically authenticated during deposit, helping protect your business from counterfeit risk.

3. **Secure High-Capacity Storage**
   Reduce cash handling costs through smarter internal cash optimisation, with capacity to securely store up to 10,000 notes.

4. **Bank Funds When You Choose**
   Funds can be settled to the bank account of your choice, at any time, improving access to cash flow and reducing reliance on manual banking runs.

5. **Simplify Reconciliation Across Departments**
   Multiple departments can be set up for clear allocation and tracking, with deposits remotely reconciled through Next Payments' Concilio software.
