

## Intermediate 3: The "Independence" Roadmap

*10-Week Japanese Online Course | Updated for 2026*

### 1. The Mission

The Japademy Intermediate 3 course is the "Final Ascent" of our foundational series. Our mission is to move you beyond being a student of the language and into being an independent speaker. We tackle the most culturally significant and grammatically advanced structures in Japanese—including the Passive Voice and complex conditionals—allowing you to describe your life from multiple perspectives and navigate professional situations with ease.

### 2. The Transformation: What You Will Be Able To Do

After the successful completion of this 10-week course, you will be able to:

- **Follow Complex Instructions:** Understand and follow instructions exactly as they are given (e.g., following a recipe, a technical manual, or a workout routine).
- **Describe Actions in Sequence:** Clearly explain what you do "after" an action or "without doing" another action (e.g., "I went to work without eating breakfast").
- **Master the Conditional "Reba":** Use the specialized "if" form to give expert advice, express regret ("I should have..."), and set specific conditions.
- **Describe Goals & Habits:** Explain how your abilities have changed over time and describe the ongoing efforts you make to achieve a goal.
- **Master the Passive Voice:** Unlock the most essential social grammar in Japan. Learn to describe things that happened to you from your perspective—critical for sounding natural and polite in social and work environments.
- **Master N5/N4 Kanji Mastery:** Confidently read and write 50+ high-level foundational Kanji, bridging the gap between a "learner" and a "reader."

### Is this the end of the Japademy journey?

It is the peak of our group foundation series! Many of our graduates move into Online Private Lessons at this stage to focus on their specific career goals, or join our upcoming JLPT Exam Prep intensives.

### Intermediate 3: The "Independence" Roadmap

#### Do I get a special certificate?
