

Where kids build, code, create, & grow!

EXPLORE STEM WITH BRAINY BYTES

K - 2ND Jr. Animation

This tablet-based course is all about bringing ideas to life through animation!

Students will explore multiple fun and creative platforms as they experiment with frame-by-frame techniques using flipbook-style software and produce their own animated movies. They'll explore designing characters, adding motion, and bringing scenes to life in exciting new ways.

With plenty of room to create, test, and remix their ideas, students will build confidence in digital animation while having a blast... and can share their creations with family and friends!
