HOUSEHOLD  
**\$100/TON**

**\*\*If needing an dumpster for asbestos, please call us as the rates & process differ.**

RAD Curbside does not set material guidelines or policies, rather Teton County, ID and the Teton County Idaho Transfer Station sets all guidelines, standards and policies. RAD must abide by these rules set by the Teton County Solid Waste Department. It is the sole responsibility of the waste generator (ie. customer) to familiarize themselves and abide by Teton County's policies, not RAD's. Teton County determines the waste type and the applicable rate. Please review the "Sort N Save Flyer", the "Unsorted Waste Description Flyer" and the information and documents found on the Teton County website link:
