I work with individuals, families, and business owners to reduce financial risk and protect what matters most. With over 37 years in the insurance industry, my goal remains the same—to educate my clients and simplify the insurance process so they can make informed decisions with confidence.

At Barnum Financial Group, I have access to a wide range of insurance solutions designed to help meet your personal and business needs. Whether it's life insurance, disability income protection, or long-term care coverage, I take the time to understand your situation and recommend strategies that support your goals and priorities.

One of the cornerstones of my practice is a commitment to ongoing support and guidance—because needs evolve, and so should your coverage.
