

HAVE CANCER? HAVE KIDS? Free support is here.

A cancer diagnosis affects the whole family—especially kids.

That's why we support children ages 6–18 through and beyond a parent's cancer with free, fun-filled, creative programs and a lasting community.

For 25 years, Kesem has been the leading national organization serving this unique population, with over 110 chapters nationwide and 100,000+ children reached. And with 99% of parents recommending our programs, families trust Kesem to be there when they need it most.

No matter your children's ages, where you are in the country, or what stage of diagnosis or treatment you're facing, Kesem offers a range of free programs—both in-person and virtual—to support your family's journey through and beyond a parent's cancer.

Camp Kesem

A free, overnight summer camp that provides days of fun-filled activities and a supportive community of other kids and counselors, **Camp Kesem** helps kids navigate anxiety, isolation, and uncertainty, reminding them they are never alone.

Kesem Together

Kesem Together day programs happen all year round right in the communities where families live, bringing in-person fun and connection to children facing a parent's cancer. Sometimes hosted by Kesem nationally, sometimes by your local chapter—always a supportive community.

Club Kesem

Club Kesem virtual gatherings provide support, fun, and year-round community to kids ages 6-18 who are facing a parent's cancer. Club Kesem is hosted by both Kesem's national organization and local Kesem chapters, where available.

Parent Club

Parents join Kesem and our partners at Wonders & Worries virtually for **Parent Club**. Led by Child Life Specialists, these sessions provide expert guidance, meaningful conversations, and a supportive space for navigating parenting through cancer.

Kesem By Your Side

Kesem By Your Side programming brings magic to Kesem kids and families beyond our scheduled programs by providing personalized support year-round, whenever challenges associated with a parent's cancer arise.
