

SASM – Sites and Areas of Significance to Māori

Section 6 of the RMA identifies 'the protection of historic heritage from inappropriate subdivision, use, and development' and 'the relationship of Māori and their culture and traditions with their ancestral lands, water, sites, wāhi tapu, and other taonga' as matters of national importance.

The Wairarapa's rich cultural and spiritual heritage is found in:

- *buildings*, features, and trees of historic heritage value;
- sites of archaeological importance;
- sites and areas of significance to Wairarapa Māori, including wāhi tapu; and
- precincts – areas of buildings or other features that, collectively, have significant historic heritage value.

This chapter provides for sites and areas of significance to Māori.

Sites and areas of significance to Māori are sites, places, features, and things that are of historical, cultural, and/or spiritual significance to Māori. They may include: urupā (Māori burial sites); historic pā and kāinga sites; battle grounds (ngā kauhanga riri); mountains and mountain ranges (ngā maunga me ngā pae maunga); rivers (ngā awa); wetlands (ngā repo) and lakes (ngā roto); symbolic and legendary landscape features; mauri stones and trees; tauranga waka (canoe landing sites); natural, clean sources of water for baptism or other ceremonial rites; mahinga kai (food gathering areas); and taonga raranga and rongoā (plants prized for weaving, medicine, and healing). Taonga, or “treasure”, is a term that carries deep spiritual meaning and can include things that cannot be seen or touched, such as Te Reo Māori (the Māori language) and spiritual beliefs and practices.

Sites and areas of significance to Māori carry deep meaning and associations for tangata whenua. They provide a tangible connection to the whenua (land), significant historical events, and urupā. Even where such sites no longer exist physically, their memory remains an important part of the cultural landscape.

A small number of sites have historically been identified in the schedules of former District Plans. However, the Councils acknowledge that there are a great number of sites that have not been identified. Further research, evaluation and engagement between Council and tangata whenua is necessary to accurately identify, understand, document and map this resource.

Based on the research, evaluation and engagement undertaken to date, the District Plan lists scheduled sites and areas of significance to Māori in Schedule 4. Identifying sites and areas of significance to Māori uses the cultural expertise of iwi and hapū through the review of wāhi taonga and archaeological sites in the district. Site identification will also enable developers and landowners to plan and undertake development activities in a way that minimises or avoids disturbance.

It is important to note that there may be other sites known only to Rangitāne o Wairarapa and Ngāti Kahungūnu ki Wairarapa that are not identified in the District Plan. For example, information about sites of significance is available on the Rangitāne Tū Mai Rā Trust website (<https://tumaira.nz/documents/document-store/#Contemporary>). In some cases, there is a reluctance by tangata whenua to identify the exact location of some wāhi tapu sites because of the need to protect their sacredness. Therefore, effective engagement with tangata whenua is necessary to ensure the ongoing protection and security of sites of significance that are not listed in the District Plan. ~~Accordingly, it is only those sites that have been identified which are protected by the provisions of the District Plan.~~

The sites and areas of significance to Māori in Schedule 4 are identified on the planning maps. Depending on the nature and scale of each site and area of significance to Māori, they are mapped either as a point, small polygon or large polygon. If the site has a discrete spatial extent, it is identified and mapped as a point. If the site or area has a larger spatial extent, the site is identified and mapped as a polygon.

Activities that disturb the ground pose a significant threat to sites and areas of significance to Rangitāne o Wairarapa and Ngāti Kahungūnu ki Wairarapa. In some cases, the original features of a site may have been lost or damaged through exposure to weather, *earthworks*, or coverage of a site by *buildings* or impermeable surfaces, but subsurface features may still remain. Even where these sites no longer exist physically, they still hold cultural significance to Rangitāne o Wairarapa and Ngāti Kahungūnu ki Wairarapa. To ensure that the sites are not further damaged or compromised, this chapter contains provisions that seek to protect the sites, and to manage activities on, or in proximity to the sites to ensure that the effects of these activities can be assessed. Where development has already taken place and the site's features have been destroyed or damaged, recognition of the site's existence may still be desirable through *signs*, planting, or some other method.

There may be a number of objectives, policies and rules that apply to an activity, building, structure, or site. Resource consent may therefore be required under rules in this chapter as well as other chapters. Unless specifically stated in a rule, resource consent is required under each relevant rule. The steps to determine the status of an activity are set out in the General Approach section in the How the Plan Works chapter.

Archaeological Authority Process

Under the Heritage New Zealand Pouhere Taonga Act 2014 (HNZPT Act), it is unlawful to destroy, damage, or modify an archaeological site (regardless of whether the site is scheduled in the District Plan or not) without obtaining an archaeological authority from Heritage New Zealand Pouhere Taonga before works begin.

Objectives

SASM-O1	Recognising sites and areas of significance to Māori
Sites and areas of significance to Māori are recognised, protected, and maintained.	
SASM-O2	Providing for kaitiakitanga
Tangata whenua can exercise kaitiakitanga in relation to sites and areas of significance to them in the Wairarapa.	
SASM-O3	Protecting sites and areas of significance to Māori
Sites and areas of significance to Māori are protected from inappropriate subdivision, use, and development.	

Policies

SASM-P1	Identify sites and areas of significance to Māori
Work with Rangitāne o Wairarapa and Ngāti Kahungunu ki Wairarapa in accordance with tikanga Māori to identify and schedule sites and areas of significance to Māori, and their cultural and spiritual values.	
SASM-P2	Protect and maintain sites and areas of significance to Māori
Protect and maintain sites and areas of significance to Māori by: a. ensuring sites and areas of significance to Māori are not modified, destroyed, removed, and/or visually encroached upon by inappropriate activities; b. requiring activities on, or in proximity to sites and areas of significance to Māori to maintain the site or area's cultural, spiritual, and historical values, interests, or associations of importance to tangata whenua; and c. enabling maintenance, repair and restoration of sites and areas of significance to Māori where the cultural, spiritual, and historical values, interests, associations of importance to tangata whenua of the site or area are protected.	
SASM-P3	Allow limited <i>earthworks</i> within sites and areas of significance to Māori
Allow for: a. Small-scale <i>earthworks</i> for burials within existing urupā; and b. Other <i>earthworks</i> on, or in proximity to sites and areas of significance to Māori only where it can be demonstrated that the identified values will be protected, having regard to: i. the extent of the <i>earthworks</i>; ii. the manner in which the <i>earthworks</i> are undertaken; iii. the monitoring of <i>earthworks</i>; and iv. the cultural, spiritual, and historical values, interests, associations of importance to tangata whenua of the site or area.	

SASM-P4	Allow limited activities within sites and areas of significance to Māori
Allow the following activities to occur on, or in proximity to sites and areas of significance to Māori, while ensuring their design, scale, and intensity will not compromise cultural, spiritual, and historical values, interests, or associations of importance to tangata whenua: a. land disturbance; b. demolition or removal of existing <i>buildings</i> and <i>structures</i> where the <i>structure</i> is not or does not form part of the site or area; c. alterations to existing <i>buildings</i> and <i>structures</i>; d. operation, maintenance, and repair of <i>existing network utility structures</i>; and e. erection of <i>signs</i>.	
SASM-P5	Protect the values of sites and areas of significance to Māori from <u>inappropriate</u> subdivision, use, and development
Only allow any other use and development on, or in proximity to sites and areas of significance to Māori where it can be demonstrated that the cultural, spiritual, and historical values, interests, or associations of importance to tangata whenua of the site or area are protected and maintained, having regard to: a. whether there are <u>practicable</u> alternative methods, locations, or designs that would avoid or reduce the impact on the values, interests, or associations of importance to tangata whenua associated with the site or area of significance; b. outcomes articulated by tangata whenua through an assessment of environmental effects, cultural impact assessment, or iwi planning documents; c. the protection and maintenance or potential enhancement of the values, interests, or associations of importance to tangata whenua of the site or area of significance and the relationship of tangata whenua with their taonga, commensurate with the scale and nature of the proposal; d. how values of significance to tangata whenua, including tikanga, kaitiakitanga, and mātauranga Māori may be incorporated; and e. for subdivision, ensure sufficient land is provided around the site or area of significance to Māori to protect values, interests, or associations of importance to tangata whenua and the remainder of the site is of a size which continues to provide it with a suitable setting to the values, interests, or associations of importance to tangata whenua of the site or area.	

SASM-P6	Avoid <u>Manage</u> removal or destruction of sites and areas of significance to Māori
Ensure the adverse effects of activities on sites and areas of significance to Māori are managed by: a. avoiding activities within sites and areas of significance to Māori, unless there is a functional need to do so and no practicable alternative location; b. avoiding <u>to the greatest extent practicable</u> significant adverse effects on the site or area's cultural spiritual and historical values; and c. for other adverse effects: i. where adverse effects cannot be avoided, they are minimised; ii. where adverse effects cannot be minimised, they are remedied; and iii. where more than minor residual adverse effects cannot be avoided, minimised, or remedied, the activity itself is avoided.	
SASM-P7	Support landowners to manage, maintain, preserve sites and areas of significance to Māori
Support landowners to manage, maintain, preserve, and protect sites and areas of significance to Māori, including by: a. increasing awareness, understanding, and appreciation within the local community of the presence and importance of sites and areas of significance to Māori; b. encouraging landowners to engage with local tangata whenua and/or marae and develop positive working relationships in respect of the ongoing management and/or protection of sites or areas of significance to Māori; c. promoting the use of mātauranga Māori, tikanga, and kaitiakitanga to manage, maintain, preserve, and protect sites and areas of significance to Māori through engagement and collaboration with tangata whenua.; d. providing assistance to landowners to preserve, maintain, and enhance sites and areas of significance to Māori; and/or e. for sites in Schedule 4, seeking to establish an extent through engagement and collaboration with tangata whenua.	
SASM-P8	Engage with tangata whenua on sites and areas of significance to Māori
Encourage engagement with tangata whenua where activities have the potential to adversely affect sites or areas of significance to Māori.	

SASM-P9	Promote access to sites and areas of significance to Māori for customary activities
Promote the provision or development of access for tangata whenua to sites and areas of significance to Māori, including through: a. formal arrangements, such as co-management, joint management, relationship agreements, easements, land covenants, or access agreements; or b. informal arrangements or understandings between landowners and local tangata whenua, iwi, hapū, or marae.	

Rules

SASM-R1	Maintenance and repair of a site or area of significance to Māori listed in SCHED4 Sites and Areas of Significance to Māori
All Zones	1. Activity status: Permitted Where: a. Works are confined to conservation, reassembly, reinstatement, repair, or stabilisation of the original character, fabric, or detailing of the site or area; and b. Works are carried out to the same design, using original or similar materials to those originally used and do not detract from the form, character, and appearance of the site or area.
All Zones	2. Activity status: Discretionary Where: a. Compliance is not achieved with SASM-R1(1).

SASM-R2	Land disturbance (excluding earthworks) within a site or area of significance to Māori listed in SCHED4 Sites and Areas of Significance to Māori
All Zones except Settlement Zone	1. Activity status: Permitted Where the land disturbance is for: a. burials within an existing urupā; or b. the installation of fence posts, water troughs and water pipes, provided the area, extent and volume of land disturbed is limited to that which is necessary to maintain an existing fence

		or water troughs and water pipes along its existing alignment or location; or c. gardening; or d. cultivation (excluding any associated land disturbance that permanently alters the profile, contour or height of the land); or e. riparian planting; or f. planting to prevent erosion; or g. grazing of livestock; or h. the maintenance or repair of existing tracks and culverts provided the area, extent and volume of land disturbed is limited to that which is necessary to maintain an existing track and culvert along its existing alignment; i. authorised works and within an approved area by an existing <u>RMA approval legal instrument</u> (<u>limited to such as</u> consent notice, <u>resource consent, designation</u> or local authority covenant) for the site. j. <u>the maintenance or repair of existing network utilities provided the area, extent and volume of land disturbed is limited to that which is necessary to maintain or repair existing network utilities.</u>
	All Zones except Settlement Zone	2. Activity status: Discretionary Where: a. Compliance is not achieved with SASM-R2(1).

SASM-R3		<i>Earthworks within a site or area of significance to Māori listed in SCHED4 Sites and Significance to Māori</i>
	All Zones except Settlement Zone	1. Activity status: Permitted Where: a. <i>Earthworks</i> are for burials within an existing urupā; or b. <i>Earthworks</i> are authorised by and located within an approved area in an existing legal instrument (such as consent notice or local authority covenant) for the site.
	All Zones except	2. Activity status: Discretionary Where:

Settlement Zone	a. Compliance is not achieved with SASM-R3(1).
------------------------	--

SASM-R4	Alterations to an existing <i>building</i> or <i>structure</i> within a site or area of significance to Māori listed in SCHED4 Sites and Significance to Māori
All Zones except Settlement Zone	1. Activity status: Permitted Where: b. The works do not involve any land disturbance (except where the land disturbance is permitted by SASM-R2); and c. For alterations, there is no change to the size or location of the foundation or footprint of the existing building or structure.
All Zones except Settlement Zone	2. Activity status: Discretionary Where: a. Compliance is not achieved with SASM-R4(1).

SASM-R5	Demolition or removal of an existing <i>building</i> or <i>structure</i> within a site or area of significance to Māori listed in SCHED4 Sites and Significance to Māori where the <i>building</i> or <i>structure</i> is not or does not form part of the site or area of significance to Māori in SCHED4.
All Zones except Settlement Zone	1. Activity status: Permitted Where: a. The works do not involve any land disturbance (except where the land disturbance is permitted by SASM-R2); and b. For alterations, there is no change to the size or location of the foundation or footprint of the existing building or structure.
All Zones except Settlement Zone	2. Activity status: Discretionary Where: a. Compliance is not achieved with SASM-R5(1).

SASM-R6	Maintenance and repair of an existing network utility structure and existing primary production structures within a site or area of significance to Māori listed in SCHED4 Sites and Significance to Māori
All Zones except Settlement Zone	1. Activity status: Permitted Where: a. The works do not involve any land disturbance (except where the land disturbance is permitted by SASM-R2); and b. There is no change to the size or location of the foundation or footprint of the existing building or structure; or c. Is for the trimming of trees or vegetation, providing it is required for the purpose of protecting the integrity of a structure or is otherwise undertaken in accordance with the Electricity (Hazards from Trees) Regulations 2003.
All Zones except Settlement Zone	2. Activity status: Discretionary Where: a. Compliance is not achieved with SASM-R6(1).

SASM-R7	New <i>buildings</i> or <i>structures</i> including network utility structures, or extension of the footprint of an existing <i>building</i> or <i>structure</i> including network utility structures on a site or area of significance to Māori listed in SCHED4 Sites and Areas of Significance to Māori
All Zones except Settlement Zone	1. Activity status: Permitted Where: a. The new building or structure is authorised by and is located within an approved area in an existing <u>RMA approval legal instrument</u> (limited to such as consent notice, <u>resource consent, designation</u> or local authority covenant) for the site.
All Zones except Settlement Zone	2. Activity status: Discretionary Where: a. Compliance is not achieved with SASM-R7(1).

SASM-R8	Modification or destruction of any site or area of significance to Māori listed in SCHED4 Sites and Areas of Significance to Māori
All Zones except Settlement Zone	1. Activity status: Discretionary

HH – Historic Heritage

Section 6 of the RMA identifies 'the protection of historic heritage from inappropriate subdivision, use, and development' as a matter of national importance.

The Wairarapa's rich cultural and spiritual heritage is found in:

- *buildings*, features, and trees of historic heritage value;
- sites of archaeological importance;
- sites of significance to Māori, including wāhi tapu; and
- precincts – areas of buildings or other features that, collectively, have significant historic heritage value.

These historic resources are important as they represent linkages to the past and provide insights into the way the Wairarapa's communities and settlements have developed. They also contribute to the character and amenity values of localities, particularly where there are neighbourhoods containing relatively numerous historic heritage buildings and features.

Historic heritage includes sites where physical traces of past activity remain such as former *buildings*, sites of human occupation, burial, and archaeological sites. It also includes places that are significant for their spiritual or historical associations, such as places where historic events took place.

Historic resources are finite and can be vulnerable to disturbance, damage, or destruction from land use. Risks include inappropriate development or incompatible adjoining uses. While the protection of Wairarapa's historic heritage is important, it is also essential that properties with historic heritage values in private ownership can be used and upgraded by their owners.

Some areas of the Wairarapa have significant historic heritage as a consequence of the combined character and values associated with a number of *buildings* and *structures* within a locality, many of which individually may not be regarded as significant. These areas are identified as heritage precincts in Schedule 2.

Policy 21 of the Wellington Regional Policy Statement includes a list of criteria to ensure significant historic heritage resources are identified in district and regional plans in a consistent way. Potential heritage items are assessed against the following criteria and must meet at least one of the following criteria to have significant historic heritage values:

1. Historic values;
2. Physical values;
3. Social values;
4. Tangata whenua values;
5. Rarity; or
6. Representativeness.

This chapter provides for heritage buildings and items identified in Schedule 1, and heritage precincts identified in Schedule 2. Sites of significance to Māori are addressed in SASM - Sites of Significance to Māori chapter.

Archaeological sites

The plan does not identify or contain rules relating to archaeological sites. However, some sites of significance to Māori may also be archaeological sites.

Under the Heritage New Zealand Pouhere Taonga Act 2014 it is unlawful to destroy, damage, or modify an archaeological site without obtaining an archaeological authority from Heritage New Zealand Pouhere Taonga (HNZPT) before you start work.

An archaeological site is defined in that Act as any place in New Zealand (including buildings, structures, and shipwrecks) that was associated with pre-1900 human activity, where there is evidence relating to the history of New Zealand that can be investigated using archaeological methods.

An archaeological authority is required in addition to any resource consents required by the Council.

If you discover a previously unknown archaeological site (e.g. when you are doing *earthworks*) you must stop any work that could affect it and contact NZHPT for advice on how to proceed.

Note: There may be a number of provisions that apply to an activity, building, structure, or site. Resource consent may therefore be required under rules in this chapter as well as other chapters. Unless specifically stated in a rule, resource consent is required under each relevant rule. The steps to determine the status of an activity are set out in the General Approach section in the How the Plan Works chapter.

Objectives

HH-O1	Recognising historic heritage
Historic heritage is recognised as important to the Wairarapa's identity.	
HH-O2	Protecting historic heritage
Historic heritage is protected from inappropriate subdivision, use, and development.	

Policies

HH-P1	Identifying historic heritage
Identify, map and schedule <i>buildings</i> , items, and precincts with significant historic heritage values.	
HH-P2	Protection of historic heritage
Protect scheduled historic heritage <i>buildings</i> and items and scheduled heritage precincts from inappropriate activities by: 1. Discouraging the demolition or relocation of scheduled historic heritage <i>buildings</i> and items; and 2. Requiring activities on, in, or surrounding scheduled historic heritage <i>buildings and</i> items, or in heritage precincts, to avoid adverse effects on historic heritage values as much as practicable.	
HH-P3	Appropriate activities
Enable the following activities relating to scheduled historic heritage <i>buildings</i> and items, where they retain historic heritage values and contribute to the ongoing function and use of the <i>building</i> or item: 1. Maintenance and repair; 2. Seismic strengthening and building safety alterations; and 3. Demolition of non-scheduled <i>buildings</i> within a heritage precinct. 4. <u>Servicing of the building and items with network utilities, where new customer connections do not attach to a primary feature or front facade of the heritage building or structure.</u>	
HH-P4	Additions, alterations, and partial demolition
Provide for additions and alterations to, and partial demolition of, scheduled historic heritage <i>buildings</i> and items where the work: 1. Promotes or enhances heritage values; 2. Is compatible with the form, proportion, and materials of the scheduled historic heritage <i>building</i> or item; 3. Does not result in significant loss of architectural features and details that contribute to the scheduled historic heritage <i>building</i> or item's heritage values; and 4. Supports the sustainable long-term use of the scheduled historic heritage <i>building</i> or item, including adaptive re-use; 5. Aligns with the guidance for heritage buildings and areas set out in the Residential Design Guide or Centres Design Guide as applicable.	

HH-P5	Earthquake strengthening, fire protection, and accessibility
Control earthquake strengthening, fire protection, and accessibility upgrades to scheduled heritage buildings and items so that works do not detract from heritage values, by: 1. Protecting, as much as practicable, architectural features and details that contribute to the heritage values of the heritage building or item; 2. Retaining or reinstating original façade appearance as much as practicable; and 3. Minimising the visual impact of additions on the scheduled heritage building or item.	
HH-P6	Buildings and structures in heritage curtilage of scheduled heritage buildings and items
Provide for new <i>buildings</i> and <i>structures</i>, and <i>additions</i> or <i>alterations</i> to existing non-scheduled buildings or structures within the <i>heritage curtilage</i> where the work: 1. Does not detract from the heritage values of the heritage <i>building</i> or item; 2. Is compatible with the form, proportions, materials, and setting of existing <i>buildings</i> within the scheduled heritage precinct as set out in the guidance for heritage buildings and areas as set out in the Residential Design Guide or Centres Design Guide as applicable; 3. Contributes to the long-term viability or ongoing use of the <i>building</i> or item.	
HH-P7	Buildings and structures in scheduled heritage precincts
Provide for new <i>buildings</i> and <i>structures</i>, and <i>additions</i> or <i>alterations</i> to existing non-scheduled buildings or structures within a scheduled heritage precinct, where the work: 1. Is compatible with the form, proportions, materials, and setting of existing <i>buildings</i> within the scheduled heritage precinct; 2. Provides continuity and coherence with the heritage values and streetscape qualities within the scheduled heritage precinct; 3. Contributes to the long-term viability or ongoing use of the <i>building</i> or item; and 4. Aligns with the guidance for heritage buildings and areas set out in the Residential Design Guide or Centres Design Guide as applicable. 5. <u>Is for a network utility building or structure, and there is a functional or operational need for the location of the building or infrastructure.</u>	
HH-P8	Relocation of heritage <i>buildings</i> and items
Avoid the relocation of scheduled heritage <i>buildings</i> or items within the existing site, or onto another site, except where it can be demonstrated that: 1. <u>There are no reasonable alternatives to retain the heritage item in its current location.</u>	

	2. The work is necessary to: - Reduce risk from natural hazards; or Provide for a significant public benefit that could not otherwise be achieved. 3. The proposed site for relocation is appropriate and would not detract from identified heritage values of the scheduled heritage <i>building</i> or item; and 4. The work would enhance the physical condition of the scheduled heritage <i>building</i> or item and its heritage values.
HH-P9	Demolition of heritage <i>buildings</i> and items
	Discourage <u>Avoid</u> demolition of scheduled heritage <i>buildings</i> and items unless it can be demonstrated that there are no reasonable alternatives, and having regard to the following matters: - Effects on historic heritage values; - The importance attributed to the heritage item by the wider community; - Feasibility of adaptive re-use; - Cost of maintenance or repair; - Building safety; and - Appropriateness, compatibility, and appearance of any replacement building in relation to heritage values.
HH-P10	Public awareness of historic heritage
	Increase public awareness of historic values and their importance and encourage the community to support the protection and conservation of historic heritage.
HH-P11	Subdivision of land containing a heritage <i>building</i> or item
	Only allow subdivision of sites containing scheduled heritage <i>buildings</i> or items, or of land within scheduled heritage precincts, where it can be demonstrated that: - The heritage values of the scheduled heritage <i>building</i> or item, or scheduled heritage precinct, are maintained and protected; and - Sufficient <i>heritage curtilage</i> is provided to protect associated heritage values.
HH-P12	Archaeological sites
	Consider the adverse effects on historic heritage values through the resource consent process, designation process, or plan change process, where the proposed subdivision, use, or development is located near known archaeological sites. Determine the significance of the historic heritage values of the archaeological sites and demonstrate how the adverse effects will be avoided, remedied, or mitigated.
HH-PXX	<u>Demolition of non-scheduled building or item within a heritage precinct</u>

Provide for demolition of non-scheduled heritage buildings and items within a heritage precinct with regard to be had to the following matters:

1. Effects on historic heritage values;
2. Provides continuity and coherence with the heritage values and streetscape qualities within the scheduled heritage precinct;
3. Feasibility of adaptive re-use;
4. Cost of maintenance or repair;
5. Building safety; and
6. That any replacement building aligns with the matters listed is HH-P7.

SCHEDULE 1 – Heritage Buildings and Items

The Heritage Inventory held by the District Councils describes the key heritage features associated with each listed building and structure. These features may include external and internal items and attributes, as well as the land and features immediately surrounding the scheduled building or structure where such land and features are intrinsically related to, or have an effect on, the historic heritage values of the heritage item.

Some items have a classification and are identified with a Heritage Covenant, or a Category I or II listing from Heritage New Zealand Pouhere Taonga, or a Category A from the Rail Heritage Trust of New Zealand. Other items have no formal classification but are considered by the community to be significant and worthy of protection.

SCHEDULE 2 – Heritage Precincts

Masterton District

Name	Location	<u>Values and Character</u>
Masters Crescent Precinct	Masters Crescent, Masterton	<u>Value</u> <u>The heritage precinct of Masters Crescent in Masterton is valued as a significant, intact example of the first Labour Government's innovative model state housing programme of the 1940s. Built from the best materials of the day and designed by an High Street/80 York St, Solway, Masterton architects, state houses embody simple and robust design. The overall layout and design of the area takes its cue from the garden city movement of the early twentieth century. The garden city ideals are expressed in the fenceless front gardens and the sense of open space.</u> <u>Character</u> <u>English Domestic Revival</u> <u>The majority of the houses are designed in this style. This style developed from the farmhouses and cottages of rural England with contributions from the Arts and Crafts Movement.</u> <u>Key Elements of English Domestic Revival</u> <u>asymmetrical</u> <u>steep pitched gable or hipped tiled roofs</u> <u>detached and semi-detached house type</u> <u>painted weatherboard, brick or cement render</u> <u>use of 'lean-to' additions at side or rear</u> <u>main entry at the front or side of house</u> <u>entry doors glazed</u> <u>windows are timber and divided into panes</u> <u>chimneys</u> <u>plastered foundation walls (plinth)</u> <u>Moderne Style</u> <u>There are some examples of the Moderne Style. The Moderne style originates from the Modern Movement in Europe which was sleek and streamlined, and characterised by rounded</u>

		<u>corners, horizontal lines, parapet walls concealing flat roofs and smooth wall surfaces.</u> <u>Key Elements of Moderne Style</u> • <u>asymmetrical</u> • <u>flat roof behind parapet wall</u> • <u>face brick or plastered external walls</u> • <u>use of 'add on' forms, which reduce in height towards the rear of the section</u> • <u>main entry at the front or side of house and located in a recessed porch</u> • <u>entry doors glazed</u> • <u>windows are timber and divided into panes</u> • <u>some windows wrap around external corners</u> • <u>some windows are circular</u> • <u>horizontal banding</u> • <u>plastered foundation walls (plinth)</u> • <u>chimneys</u>
Queen Elizabeth Park Precinct	Masterton	<u>Value</u> <u>Originally known as Masterton Park, it was renamed in honour of Her Majesty following her visit in 1954. The site was surveyed in 1854 and set aside for 'public reserve'. By 1875, the site was designated for 'public recreation reserve' and in 1878 the first major planting occurred with numerous deciduous trees and conifers, still existing today.</u> <u>The Park is steeped in history and has served as a central gathering place for community events, leisure, recreation, and remembrance since its establishment.</u> <u>Character</u> <u>Located by the Waipoua River, Queen Elizabeth Park impresses with its mature trees, gardens, and features prominently in the Masterton's town centre. The park hosts numerous notable built and natural features, including;</u> <u>Key Features</u> - <u>Coronation Hall (1912)</u> - <u>Band Rotunda (1903)</u> - <u>Grandstand (1895)</u> - <u>Cricket Grounds (1881)</u> - <u>The Christina and Alice Baths/Hosking Gardens (1910 as Women's Baths, 1968 as sunken garden)</u> - <u>Pownall Gates (1903)</u>

Proposed Wairarapa Combined District Plan (Decisions Version)
 SCHED2 – Heritage Precincts

		- Lake of Remembrance (1908) - Māori Peace Statue (1921) - Fernery (1924) - Cenotaph (1923) - Miniature railway (1972)
Solway Show Grounds	High Street/80 York St, Solway, Masterton	<u>Value</u> Registered as a Historic Area under the Historic Places Act 1993, Solway Showgrounds holds cultural, historical, and physical significance. The Solway Agricultural and Pastoral Showgrounds are part of New Zealand’s rural tradition stretching over 150 years. The Masterton A&P Association was formed in 1885 and purchased the site in 1908. The annual A&P Show has been held almost every year since, being a significant event in the farming and social calendar. The showgrounds have also been used as a temporary camp during the 1918 influenza epidemic, a training camp for both World Wars, and was host to the ‘Battle of Solway’; the Ranfurly Rugby Match between Wairarapa and Hawkes Bay. The entire grounds contain a collection of buildings that are harmonious yet dates range more than 90 years with most structures at the showgrounds built for the opening in 1911 remaining. The site is arguably New Zealand’s most complete assembly of period showground buildings with many of the individual buildings having aesthetic and technical value in their own right. <u>Character</u> Collectively, the buildings and land, form a complex that is historically interesting, functional and has landscape quality with the remnants of native lowland forest, trees, and open space in the heart of Masterton. Key structures include: • The Grandstand 1910; designed by Crichton and Mackay, the structure remains relatively the same since construction and includes a series of rooms on the ground floor including service rooms, dining room kitchen, toilets, and the President’s Room. • Kiosk c.1910

Proposed Wairarapa Combined District Plan (Decisions Version)
 SCHED2 – Heritage Precincts

		• <u>Trades Hall 1943; established by the US Marine Corps.</u> • <u>No 2 Trades Hall (former Produce Hall), c. 1910 but possibly c.1890s probably relocated.</u> • <u>Club Hall c.1900, then reconstructed c.1950s</u> • <u>Secretary's Office c.1890s</u> • <u>Poultry Building 1910</u> • <u>Sheep Pens 1910</u> • <u>Sheep Pavillion c.1920-30s</u> • <u>Sheep and Goats Building 1910</u> • <u>Cattle Pavilion 1910</u> • <u>Judges Box (unknown).</u>
Victoria Street Precinct	Victoria Street Precinct, Masterton	<u>Value</u> <u>The heritage precinct of Victoria Street is valued for its high-quality housing from a cross section of eras, representative of early and developing Masterton. The subdivision of James Wrigley's farm to create Victoria and Albert Streets in 1878 was the first major subdivision of suburban land outside the town, which was laid out in 1954. Victoria Street was considered a very desirable address in the period 1880-1910 - the quality of many of the houses reflects this. This precinct has value for its link to Masterton's history, as well as for its distinct, high-quality character, adding to Masterton's sense of place.</u> <u>Character</u> <u>The character of streetscape comes from a combination of elements: a predominance of original cottages and villas, a consistency of one or two-storey houses with common setbacks from the street edge, and a limited range of materials, detailing and colours reflecting the times in which the houses were built. The house designs of Victoria Street were based on overseas domestic building styles and were modified to suit local conditions such as climate, and the supply and cost of building materials.</u> <u>Cottages</u> <u>Early dwellings on Victoria Street (1879-1881) were workers' houses or small cottages. Cottages had two or four small rooms under a hip or gable roof with a lean-to kitchen at the rear.</u>

		<u>Key Elements of Victorian Cottages</u> • <u>Symmetry</u> • <u>central corridor with one room on each side</u> • <u>front verandah</u> • <u>painted timber walls and corrugated iron roof</u> • <u>a low stud (wall) height of 2.4m (8ft)</u> • <u>house close to, or right on street boundary</u> • <u>low picket front fence</u> <u>Villas</u> <u>Villas were larger, more complex houses than cottages. They gradually evolved to become more decorative in late Victorian and Edwardian eras. The most notable examples of villas in Victoria Street were built by the Byford brothers, who were renowned for their fine carpentry and craftsmanship.</u> <u>Key Elements of Villas</u> • <u>projecting front room(s) with bay windows</u> • <u>stud height of up to 3.6m (12ft)</u> • <u>greater complexity to roof forms than cottages</u> • <u>decorative timber work</u> <u>Bungalows</u> <u>Victoria Street contains some examples of the 'Arts and Crafts' bungalow style built in the 1920s. These houses have low pitched, sweeping roofs with deep verandah porches and large front gardens.</u>
Brancepeth	Stronvar Road, Masterton	<u>Values</u> <u>This historic place was registered under the Historic Places Act 1993 for its historical, cultural, and physical significance. Brancepeth Stations has historical significance as an important case-study in the history of land acquisition in the Wairarapa. The Station represents the impact of Crown negotiations and the Native Land Court on Maori land, the development and importance of pastoralism in New Zealand.</u> <u>The completeness and integrity of Brancepeth and its buildings, developed between 1856 and 1905, is both remarkable and rare. The Homestead was constructed in 1905 at the peak</u>

		<u>of Brancepeth's economic power and during New Zealand's 'golden age of big house building' remains one of the grandest homes in the region. The Homestead sits amongst gardens of mature trees, expansive lawns, and formal garden plots. The complex of buildings provokes a sense of 'going back in time' which is enhanced by the Station's equipment that has been retained in most of the buildings. The 'design' of Brancepeth Station is dictated by each building's function and the materials immediately available to hand. Each building was custom-made on site from pit-sawn timber cut on the Station, and custom-made to meet the Station's needs.</u> <u>Character</u> <u>The Precinct area is taken from the Heritage NZ registration, which combines 13 previously registered entries. The complex of historic buildings surrounding the grand Homestead at the core of Brancepeth Station make it a place of rare and valuable historical interest, and an outstanding and remarkably intact example of Victorian sheep station self-sufficiency.</u> <u>The registration includes the land, all pre-1950 buildings, their fittings and fixtures, and all pre-1950 objects associated with the station.</u> <u>Key structures and features:</u> • <u>Brancepeth Homestead</u> • <u>Brancepeth Station Whare</u> • <u>Office & Library</u> • <u>Stables & Coach House</u> • <u>Station Store</u> • <u>Garden Shed</u> • <u>Fowlhouse</u> • <u>Kennels</u> • <u>Original Woolshed</u> • <u>Lane Cottage</u> • <u>Fat House & Gallows</u> • <u>Original Stables & Blacksmiths Shop</u> • <u>Slaughterhouse</u> • <u>Post and Rail Fence</u>

South Wairarapa District

Name	Location	
Areas of the Martinborough Town Centre	Martinborough	<u>Values</u> <u>Established between 1881-1885 as a private land development by, and named after, Hon. John Martin MLC, Martinborough is a fine example of rural town development during the heyday of both pastoral farming and of the British Empire.</u> <u>Its Union Jack street layout is unique in New Zealand and established on land that in 1844 was part of Wharekaka, the first sheep station in New Zealand, and part of Huangarua Station from where the first beef was exported to the United States in 1850. This background of pastoral wealth, and the huge rural hinterland that the town was established to service, is evident today in such buildings as its banks, post office, library, larger commercial premises and fine surrounding examples of large late nineteenth century houses.</u> <u>Character</u> <u>At the heart of Martinborough is Memorial Square from which residential homes and streets radiate, and shops and restaurants adjoin. The quiet streetscape, low-scale 1-2 storey heritage buildings (1890s) and sympathetic contemporary structures, create a relaxed village atmosphere in rural Wairarapa.</u> <u>Key Features:</u> <u>• Union Jack street layout</u> <u>• Memorial Square and listed notable trees; predominately English oak and elm.</u> <u>• Martinborough Hotel, Old Bookshop, Old Post Office, Bank of New Zealand, and Former Library.</u> <u>• Gas-lamp style street lights, no street trees.</u>
Areas of the Featherston Town Centre	Featherston	<u>Values</u> <u>The area previously known as Burlings, after Henry Burlings who opened an accommodation house in 1847, the town of Featherston was formally established in 1856 by the Wellington Provincial Council. The town was recognised as a land transport crossroads and “Gateway to Wairarapa” and by 1857, the Remutaka Hill Road</u>

		<u>was opened to wheeled traffic. The crossroads pattern of development, heightened by the arrival of the railway in 1878, remains evident in the town's centre, which straddles two state highways and a railway line.</u> <u>Featherston's heritage includes being home of the Featherston Military Camp, which was New Zealand's largest training camp in WWI and home to the Fell Engine Museum, containing one of the only surviving examples of a fell locomotive engine, which operated from 1878 to 1955.</u> <u>Character</u> <u>The towns heritage precinct captures open-space areas such as the Town Square, Cherry Tree Park, and War Memorial, as well as the mix of shops from a range of eras. The shops are predominately clustered single-storey buildings immediately adjoining footpath.</u> <u>Key Features</u> - <u>War Memorial and Town Square</u> - <u>Heritage buildings such as Featherston Library, Courthouse, and Sunleas Garden Supplies.</u> - <u>Verandaed, low-profile shops with close street-frontage.</u>
Areas of the Greytown Town Centre	Greytown	<u>Values</u> <u>Pāpāwai has been home to Wairarapa Maori for hundreds of years and in the late 19th century Pāpāwai Marae was the focus of Kotahitanga – the Māori Parliament movement. The settlement of Greytown was founded in 1854 and was New Zealand's first planned inland town. Greytown developed as a market and servicing centre and soon became the region's largest settlement, becoming a borough in 1878. Home to New Zealand's first Arbour Day, the town centre evolved naturally from the original Town Acres and has left many early buildings, historic trees, and historic sites readily accessible.</u> <u>The town contains Wairarapa's oldest known standing structure (1856), oldest surviving commercial structures (1865-67), and well-preserved later domestic and commercial buildings, with fine examples from each decade from 1870 to 1910, all contribute to what is</u>

		<u>claimed to be the most complete wooden Victorian main street in New Zealand.</u> <u>Character</u> <u>The town centre is characterised by a clearly defined concentration of closely spaced timber-built heritage buildings (pre-1920s) at the street edge. In contrast, the adjacent residential properties are characterised by mature gardens that provide private settings for relatively modest detached timber dwellings that are only partly seen from the street through a screen of foliage. Main Street also has no street trees, although mature trees on private properties overhang the footpath, giving an avenue-like impression in some parts.</u> <u>Greytown's Main Street and its historic single and double-storey Victorian-era buildings all contribute to Greytown's unique heritage character.</u> <u>Key features</u> • <u>Numerous heritage listings, including Borough Council Chambers, Old Bank of New Zealand, Greytown Library, Former Pharmacy, Greytown Butchery, Baillie's Homestead, and Sacred Heart Church.</u> • <u>Residential heritage cottages, villas, and bungalows.</u> • <u>Gas-lamp styled street lights</u> • <u>Avenue-like trees; English oak and elm.</u>

TREE – Notable Trees

Wairarapa's notable trees are those that have been identified and assessed as being of significant value for botanical and/or for historic, cultural, spiritual, landmark, or other community reasons. Trees may be identified as an individual stand-alone tree or a small group of trees where each tree within the group is protected. Notable trees include both exotic and indigenous species and have significance to the community.

Notable trees have been assessed using the Standard Tree Evaluation Method (STEM) from the publication Flook, R.R. (1996) STEM A Standard Tree Evaluation Method, Nelson, New Zealand. STEM assesses trees based on condition (health) and amenity (community benefit) as well as notability (distinction). [Trees assessed with total STEM points of 110 or more in the South Wairarapa District and 120 or more in Carterton and Masterton Districts have been considered worthy of being scheduled as Notable Trees.](#)

Street trees (trees where the trunk is located within the road reserve) play an important role in terms of green cover in the districts, contributing to streetscape amenity, landscape, cultural, and ecological values. This chapter contains rules to protect *street trees* and ensure any works are undertaken in accordance with best arboricultural practice.

There may be a number of rules that apply to an activity, building, structure, or site. Resource consent may therefore be required under rules in this chapter as well as other chapters. Unless specifically stated in a rule, resource consent is required under each relevant rule. The steps to determine the status of an activity are set out in the General Approach section in the How the Plan Works chapter.

Objectives

TREE-O1	Protection of notable trees
Notable trees that contribute to amenity, landscape, historical, cultural, or botanical values are recognised, identified, and protected.	
TREE-O2	Protection of street trees
<i>Street trees</i> that contribute to amenity, landscape, cultural, or ecological values are protected.	

Policies

Notable Trees	
TREE-P1	Identification and scheduling of notable trees
Identify notable trees using the Standard Tree Evaluation Method (STEM) and schedule trees (in SCHED3 Notable Trees) where they are assessed as having significant values, having regard to: a. botanical and ecological values; b. cultural, landscape, amenity, and heritage (including tangata whenua) values; c. ongoing management of the tree and proximity to surrounding structures and <i>infrastructure</i>; and d. appearance and health of the tree.	
TREE-P2	Allowing appropriate works on notable trees
Provide for the minor-pruning or trimming of notable trees and activities in their <i>root protection areas</i> where the works are necessary to: a. improve or maintain tree health; b. prevent damage to property or infrastructure or improve public safety; or c. enable installation of underground network utilities of a minor nature using methods that avoid adverse effects on the notable tree.	
TREE-P3	Potentially appropriate works on notable trees
Allow other pruning or trimming of notable trees and activities in their <i>root protection areas</i> where it can be demonstrated that the works: a. do not compromise the long term health of the notable tree; b. do not compromise the values of the notable tree described in SCHED3 Notable Trees; c. do not reduce the natural life of the notable tree; d. do not increase the risk of the notable tree or nearby notable trees being subject to wind damage; and e. do not impact the natural shape and form of the notable tree.	
TREE-P4	Subdivision of sites with notable trees
Manage subdivision of sites containing a notable tree to ensure any adverse effects on the tree are avoided, remedied, or mitigated, considering:	

a. the specific significance and values of the tree(s); b. the extent that the subdivision provides for protection of the tree(s) including consideration of lot size, configuration, and layout and the location of potential <i>building platforms</i> and <i>accessways</i>; c. the location of any necessary <i>network utilities</i>; and d. the likelihood of any serious threat to people or property from the tree(s).	
TREE-P5	Removal of notable trees
Discourage the removal, partial removal, or destruction of a notable tree, unless: a. it is necessary to prevent serious imminent threat to the safety of people or property; or b. the tree is dead or is in terminal decline <u>irreversible decline</u> as assessed and certified by a qualified arborist.	
Street Trees	
TREE-P6	Allowing appropriate works on <i>street trees</i>
Provide for the minor <u>pruning or</u> trimming of <i>street trees</i> and activities in their <i>root protection areas</i> where the works are necessary to: a. improve or maintain tree health; b. prevent damage to property or <i>infrastructure</i> or improve public safety; c. enable installation of underground network utilities of a minor nature using methods that avoid adverse effects on the street tree.	
TREE-P7	Potentially appropriate works on <i>street trees</i>
Allow other <u>pruning or</u> trimming of <i>street trees</i> and activities in their <i>root protection areas</i> where it can be demonstrated that the works: a. do not compromise the long term health of the <i>street tree</i>; b. do not reduce the natural life of the <i>street tree</i>; c. do not increase the risk of the <i>street tree</i> being subject to wind damage; and d. do not impact the natural shape and form of the <i>street tree</i>.	
TREE-P8	Removal of <i>street trees</i>
Discourage the removal, partial removal, or destruction of a <i>street tree</i>, unless: a. it is necessary to prevent serious imminent threat to the safety of people or property;	

	b. the tree is dead or is in terminal decline as assessed and certified by a qualified arborist; or c. the removal is undertaken or supervised by Council, having determined it is necessary, having regard to whether: i. the tree has reached a stage in its lifecycle where it is not fulfilling the purpose for which it was originally planted; ii. the tree is having a detrimental effect on roadways, footpaths, stormwater or drainage flows, underground or overhead services; iii. the tree is causing excessive shading, branch or root encroachment and the problem cannot otherwise be economically or practicably remedied; or iv. the tree is a rogue tree, that was not planted by Council or that is not a desired species or is detracting from single species plantings in the location.
TREE-P9	Works on <i>street trees</i> by Council
Allow works on <i>street trees</i> where they are undertaken by or supervised by Council using best arboricultural practices.	

Rules

TREE-R1	<u>Pruning or trimming</u> of any notable tree listed in SCHED3 Notable Trees
All zones	1. Activity status: Permitted Where: a. The activity does not result in more than minor <u>pruning or trimming</u> of any notable tree, where minor <u>pruning or trimming</u> means: i. the removal of broken branches, deadwood, or diseased vegetation; ii. the removal of branches interfering with <i>buildings</i> or <i>structures</i>, but only to the extent that the branches are touching those <i>buildings</i>, or <i>structures</i>; iii. the <u>pruning or trimming</u> is required by statute or regulations, including the Electricity (Hazards from Trees) Regulations 2003 or the Telecommunications Act 2001 <u>or the Government Roading Powers Act 1989;</u> iv. <u>the pruning or trimming</u> is required to address an imminent danger to an electricity <u>or telecommunication</u> line; or v. other <u>pruning or trimming</u> necessary to maintain the health of a listed tree, certified by a <i>qualified arborist</i>;

	b. All <u>pruning or</u> trimming is undertaken or supervised by a <i>qualified arborist</i>; c. Notice is provided to Council in writing at least 10 days prior to the <u>pruning or</u> trimming being undertaken, specifying the location, nature, and purpose of the <u>pruning or</u> trimming works and the details, including qualifications, of the arborist who is to undertake or supervise the works; and d. The minor <u>pruning or</u> trimming of any tree shall not adversely affect the health or appearance of the tree.
All zones	2. Activity status: Restricted discretionary Where: a. Compliance is not achieved with TREE-R1(1). Matters of discretion: 1. The matters in TREE-P3. 2. Disposal of removed vegetation.

TREE-R2	Any activity within the <i>root protection area</i> of any notable tree listed in SCHED3 Notable Trees
All zones	1. Activity status: Permitted Where: a. The activity does not involve or result in: i. the destruction, removal, or partial removal of the notable tree; ii. earthworks, except for: a. earthworks for the purpose of installing underground network utilities, including customer connections, provided these are: i. <u>at least 1m below ground level</u> no shallower than 1m below ground level; ii. installed by hand-digging or trenchless means (such as air spade, hydro vac or directional drilling methods); and iii. have an entry point either outside of the root protection area or that has an area of less than 1m²; iii. the covering of the ground by any <i>building</i> or <i>structure</i> or the storage of goods, including the parking of vehicles; iv. the laying of any impervious surface; or v. the discharge of any toxic substance hazardous to the tree, unless a qualified arborist certifies that the health of the tree will not be adversely affected.

All zones	2. Activity status: Restricted discretionary Where: a. Compliance is not achieved with TREE-R2(1). Matters of discretion: 1. The matters in TREE-P3. 2. Options for the tree's management, including protection. 3. Replacement planting in the event the works result in loss of the tree.

TREE-R3	<u>Pruning or</u> trimming of any <i>street tree</i>
All zones	1. Activity status: Permitted Where: a. The activity does not result in more than minor <u>pruning or</u> trimming of any <i>street tree</i>, where minor <u>pruning or</u> trimming means: i. the removal of broken branches, deadwood, or diseased vegetation; ii. the removal of branches interfering with <i>buildings</i> or <i>structures</i>, but only to the extent that the branches are touching those <i>buildings</i>, or <i>structures</i>; iii. the <u>pruning or</u> trimming is required by statute or regulations, including the Electricity (Hazards from Trees) Regulations 2003 or the Telecommunications Act 2001; or iv. the <u>pruning or</u> trimming is required to address an imminent danger to an electricity <u>or telecommunication</u> line; b. All <u>pruning or</u> trimming is undertaken or supervised by the Council or a <i>qualified arborist</i>; c. Notice is provided to Council in writing at least 10 days prior to the <u>pruning or</u> trimming being undertaken, specifying the location, nature, and purpose of the <u>pruning or</u> trimming works and the details, including qualifications, of the arborist who is to undertake or supervise the works; and d. The minor <u>pruning or</u> trimming of any tree shall not adversely affect the health or appearance of the tree.
All zones	2. Activity status: Restricted discretionary Where:

	a. Compliance is not achieved with TREE-R3(1). Matters of discretion: 1. The matters in TREE-P7. 2. Options for the tree's management, including relocation or protection. 3. Disposal of removed vegetation.

TREE-R4		Any activity in the road reserve within the <i>root protection area</i> of any <i>street tree</i>
All zones		1. Activity status: Permitted Where: a. The activity does not involve or result in: i. the destruction, removal, or partial removal of the street tree; ii. earthworks, except for: a. earthworks for the purpose of installing underground network utilities, including customer connections, provided these are: i. no shallower than 1m below ground level; ii. installed by hand-digging or trenchless means (such as air spade, hydro vac or directional drilling methods); and iii. have an entry point either outside of the root protection area or that has an area of less than 1m²; iii. the covering of the ground by any <i>building</i> or <i>structure</i> or the storage of goods; iv. the laying of any new impervious surface; or v. the discharge of any toxic substance hazardous to the tree, unless a qualified arborist certifies that the health of the tree will not be adversely affected.
All zones		2. Activity status: Restricted discretionary Where: a. Compliance is not achieved with TREE-R4(1). Matters of discretion: 1. The matters in TREE-P7. 2. Options for the tree's management, including protection. 3. Replacement planting in the event the works result in loss of the tree.

TREE-R5		<u>Pruning or</u> trimming, removing, or altering any <i>street tree</i> by Council
	All zones	1. Activity status: Permitted Where: - The work is undertaken <u>or certified</u> by the Council; and - The work is undertaken in accordance with best arboricultural practice.
	All zones	2. Activity status: Restricted discretionary Where: - Compliance is not achieved with TREE-R5(1). Matters of discretion: - The matters in TREE-P7. - The matters in TREE-P8. - Options for the tree's management, including protection or relocation. - Disposal of removed vegetation. - Replacement planting.

TREE-R6		Removing or altering any notable tree listed in SCHED3 Notable Trees, other than provided for by TREE-R1
	All zones	1. Activity status: Restricted discretionary Matters of discretion: - The matters in TREE-P3. - The matters in TREE-P5. - Options for the tree's management, including relocation or protection. - Disposal of removed vegetation. - Archival recording. - Replacement planting.

TREE-R7		Removing or altering any <i>street tree</i>, other than provided for by TREE-R3 or TREE-R5
	All zones	1. Activity status: Restricted discretionary Matters of discretion:

	1. The matters in TREE-P7. 2. The matters in TREE-P8. 3. Options for the tree's management, including relocation or protection. 4. Disposal of removed vegetation. 5. Archival recording. 6. Replacement planting.
