

Some provisions within this chapter are subject to appeal to the Environment Court. Provisions that are under appeal are identified by a red box around the provision and a footnote identifying the appellant. The appeal documentation, including the scope of the appeal and relief sought, is available on the Council's Appeals webpage on the Wairarapa Plan website.

OSZ – Open Space Zone

The purpose of the Open Space Zone is to provide for a range of passive and active *recreational activities*, along with limited facilities and *structures* that are associated with those activities. Land in the Open Space Zone is generally characterised by a sense of openness and a low level of development. It includes parks, playgrounds, *community facilities*, and informal recreation spaces in a range of sizes, locations, settings, and communities. The zone also includes existing council owned cemeteries.

Some of the land in the Open Space Zone is subject to Reserve Management Plans prepared under the Reserves Act 1977. While Reserve Management Plans determine what types of land uses are appropriate for public open spaces that are classified as reserves, the RMA is responsible for managing the effects on the environment of activities taking place on those reserves.

There may be a number of rules that apply to an activity, building, structure, or site. Resource consent may therefore be required under rules in this chapter as well as other chapters. Unless specifically stated in a rule, resource consent is required under each relevant rule. The steps to determine the status of an activity are set out in the General Approach section in the How the Plan Works chapter.

Objectives

OSZ-01	Purpose of the Open Space Zone
The Open Space Zone is predominantly used for a range of passive and active <i>recreational</i> and <i>community activities</i> , along with associated facilities and <i>structures</i> necessary to support such activities.	
OSZ-02	Character and amenity values of the Open Space Zone
The predominant character and amenity values of the Open Space Zone are maintained or enhanced and not compromised by incompatible activities or <i>structures</i> , including: <ul style="list-style-type: none">a. a sense of openness, other than on sites specifically dedicated to a larger scale of built development of recreation or <i>community facilities</i>;b. a low level of development, with few structures to support <i>recreational</i> and <i>community activities</i> and parks management; andc. safe, accessible, and connected public spaces.	

OSZ-O3	Mana whenua values
<p>Open spaces incorporate and reflect mana whenua values and provide opportunities for tangata whenua to use open spaces for recreational and cultural uses that enhance Māori wellbeing.</p>	

Policies

OSZ-P1	Compatible activities
<p>Enable activities, <i>buildings</i>, and <i>structures</i> which are compatible with the purpose, character, and amenity values of the Open Space Zone and consistent with any applicable Reserve Management Plan, while ensuring their design, scale, and intensity reflects the purpose, character, and amenity values of the Zone.</p>	
OSZ-P2	Potentially compatible activities
<p>Only allow activities that are compatible with the purpose, character, and amenity values of the Open Space Zone, considering whether they are:</p> <ol style="list-style-type: none"> a. consistent with any applicable Reserve Management Plan or reserve status under the Reserves Act 1977; b. ancillary to and/or support other activities within the open space area; c. of a scale and location compatible with the purpose, character, and amenity values of the area; d. not constraining the establishment and operation of other activities within the open space area, compromising safety, or restricting of public access to and across open space; e. of a form, scale, location, and nature that will not compromise established or planned open space activities in Reserve Management Plans and result in any conflict; and f. able to be serviced with adequate <i>infrastructure</i> and services. 	
OSZ-P3	Incompatible activities and development
<p>Avoid use and development that is incompatible with the purpose, character, and amenity values of the Open Space Zone or any applicable Reserve Management Plan, unless there is a <i>functional</i> or <i>operational need</i> to establish on the site.</p>	

OSZ-P4	Maintaining character and amenity
<p>Ensure effects generated by activities are of a type, scale, and level to maintain the character and amenity of the Open Space Zone and surrounding Zone, including by:</p> <ul style="list-style-type: none"> a. providing separation distances and minimising the number, type, bulk, and location of <i>structures</i>; and b. limiting coverage of open space land by <i>structures</i>. 	
OSZ-P5¹	Relocatable buildings
<p>Provide for the relocation of buildings while requiring the completion and renovation within a reasonable timeframe by:</p> <ul style="list-style-type: none"> a. requiring pre-inspection reports to be prepared that identify any reinstatement work required to the exterior of the building following the building relocation; b. ensuring that relocatable buildings have the same use as what they were previously designed, built and used for; c. requiring a performance bond as a security that reinstatement works will be appropriately completed in a timely manner; and d. maintaining and enhancing the amenity values of areas by ensuring the adverse effects of relocatable buildings are avoided, remedied or mitigated.
