

## Designations

A designation is a mechanism used by Ministers of the Crown, local authorities, and network utility operators approved as requiring authorities to get planning authorisation for public works and protect land for future public works. A designation is a form of 'spot zoning' over a site, area or route in a district plan. A designation enables a requiring authority to undertake works in the designated area without the need for resource consent if the works are within the scope of the designation. However, they may still need to obtain resource consents from the Greater Wellington Regional Council.

Designations that are already in the Operative District Plan may be rolled over into the Proposed District Plan with or without modification. Rollover notices can be found on the website at <https://www.wairarapaplan.co.nz/>.

New designations are included through a Notice of Requirement. A Notice of Requirement has immediate interim effect when it is notified, meaning that no person may do anything that would prevent or hinder the public work, project, or work to which the designation relates unless the person has the prior written consent of the requiring authority. Notices of Requirement can be found on the website at <https://www.wairarapaplan.co.nz/>.

Once the Requiring Authority accepts the local authority's recommendation on the Notice of Requirement (if the recommendation is to approve) it becomes a new Designation or the existing Designation is altered in accordance with what the Requiring Authority has accepted.

Outline plans are required to be submitted to Council prior to construction commencing of any public work, or work on designated land, except for works excluded under Section 176A of the Resource Management Act 1991. Outline plans are not required for:

- a. Any work which the person or body responsible for its construction considers is immediately necessary:
  - i. To safeguard life or property; or
  - ii. To maintain or restore communication or transport links.
- b. Dams and bridges.
- c. Any utility listed as a permitted activity in the District-wide and Zone rules of this Plan.
- d. Such other works for which it is considered by the Council to be impracticable or unnecessary to prepare outline plans.

In some instances the designation boundary on the Planning Maps may appear to be offset from the underlying cadastre. This is a result of discrepancies within LINZ Core Record System.</p> |

## MEDU – Minister of Education

"Education Purposes" in the designated purpose means to:

- a) Enable the use of the facilities on the site by and for the educational benefit of any preschool and school age students (i.e. years 0 to 13) regardless of whether they are enrolled at the institution located on the site.
- b) Enable the provision of supervised care and study opportunities for students outside school hours in school facilities.
- c) Enable the provision of community education (e.g. night classes for adults) outside school hours in school facilities.
- d) Include but not be limited to the provision of academic, sporting, social and cultural education including through:
  - i) Formal and informal recreational, sporting and outdoor activities and competitions whether carried out during or outside school hours;
  - ii) Formal and informal cultural activities and competitions whether carried out during or outside school hours;
  - iii) The provision of specialist hubs and units (including language immersion units and teen parenting units) for children with particular educational requirements or special needs.
- e) Enable the use of facilities for purposes associated with the education of students including school assemblies, functions, fairs and other gatherings whether carried out during or outside school hours.
- f) Enable the provision of associated administrative services; carparking and vehicle manoeuvring; and health, social services and medical services (including dental clinics and sick bays).
- g) Enable housing on site for staff members whose responsibilities require them to live on site (e.g. school caretaker) and their families."

### Conditions

1. The following structures, buildings, equipment and ancillary land uses to maintain the operation of the facility shall be permitted and may be established and/or undertaken within the area subject to this designation on a permanent basis without the provision of any outline plan of works pursuant to section 176A of the ACT:
  - a. The upgrade, repair or repositioning of the existing tower and equipment building within the designated area;
  - b. The installation of dish antennas with a maximum diameter less than 4.0 metres.
  - c. Broadcasting, Telecommunication and Radiocommunication antennas including whip, grid, yagi, dipoles and panels or similar ancillary equipment, but no single antenna shall have a solid frontal surface area of greater than 4.0m<sup>2</sup>, unless otherwise specified above or being a replacement of an existing antenna.

- d. Equipment Cabinets and container generators not exceeding 18m<sup>2</sup> in plan area.
- e. The use of auxiliary power generators on a temporary basis as necessary.
- f. The maintenance of the land and vegetation within the designated area to ensure the ongoing operation of the facility.

## KRH – KiwiRail Holdings Limited

| <b>KRH-M-01: Wairarapa Line including rail bridges and level crossings</b> |                                                                                                                                                                                                                                                                                                            |

### **Conditions**

#### Conditions relating to Aircraft Noise Management:

1. Hood Aerodrome shall be managed so that noise from aircraft operations does not exceed 50 dBA Ldn outside the Outer Air Noise Boundary or 60 dBA Ldn outside the Inner Air Noise Boundary shown on the District Plan planning maps numbered 14, 39, 50, 51 and 52. For the purpose of this control, aircraft noise shall be assessed in accordance with NZS6805:1992.
2. The airport authority shall demonstrate compliance with Condition (1) annually by calculating noise contours based on records of actual aircraft activities for the preceding 12 month period. In addition to calculating noise contours for the 12- month period, and to account for intensive noise effects associated with highly seasonal aircraft activity, the airport authority shall also calculate noise contours to demonstrate compliance for the busiest 3-month period of aircraft activity.
3. The annual noise compliance calculations undertaken under Condition (2) shall include calculation of the cumulative noise energy resulting from aircraft taking off from and landing on runway 14/32 to and from the north across South Road.
4. The airport authority shall make available to the Masterton District Council copies of its annual noise compliance calculations on request.
5. 'Noise from the following aircraft operations shall be excluded from compliance assessment calculations:
  - a. Aircraft landing or taking off in an emergency; and
  - b. Emergency flights required to rescue persons from life-threatening situations or to transport patients, human organs or medical personnel in medical emergency; and

- c. Aircraft using the airport in unforeseen circumstances as an essential alternative to landing at another scheduled airport; and
  - d. Flights required to meet the needs of a national or civil defence emergency declared under the Civil Defence Act 1983; and
  - e. Flights certified by the Minister of Defence as necessary for reasons of national security in accordance with Section 29A of the Civil Aviation Act 1990;
  - f. Aircraft undertaking fire fighting duties; and
  - g. Aircraft involved in air shows.
6. The airport authority shall prepare and implement a Noise Management Plan to assist in the management of noise from aircraft operations. The Noise Management Plan shall address the following matters:
- a. The operational restrictions and mitigation measures intended to minimise the impact of aircraft noise on the environment surrounding the Aerodrome;
  - b. The responsibilities of the airport authority and of Aerodrome users respectively to comply with operational restrictions and to adopt the mitigation measures;
  - c. The procedures intended for monitoring and recording actual aircraft movements at the Aerodrome;
  - d. The procedures to be adopted for receiving, logging and responding to noise complaints including details of the personnel to be contacted and their 24-hour contact phone numbers.
7. The airport authority shall review the effectiveness of the Noise Management Plan every 5 years.
8. The airport authority shall, in preparing the Noise Management Plan and any subsequent review of that Plan required by Conditions (6) and (7), consult with the owners and occupiers of land surrounding the Aerodrome who are potentially affected by noise from aircraft activities including but not limited to the owners and occupiers of properties in South Road (west of Manaia Road) and number 124 South Belt or their representatives. This requirement to consult does not confer on those parties any power under the Act to approve or modify the Noise Management Plan but is intended to provide an opportunity for those parties to view and contribute to the contents of the Noise Management Plan.

Conditions Relating to Motor Sport Activities:

9. The frequency of organised motor sport events shall not exceed the following:
- a. Combined drag-racing and burn-out events: no more than 5 times per year;
  - b. Separate burn-out events: no more than 3 times per year;
  - c. Motorcross events: no more than 11 times per year.

10. Organised motor sport events including drag racing, burn-outs and motorcross events may occur only between the hours of 7 am to 10 pm.
11. Casual non-organised use of the motorcross facility may occur at any other time.

### **Conditions**

#### General

1. The development and use of the land shall be in accordance with its designated purpose for 'Aerodrome and Recreation (Airpark Precinct) Purposes', which, in addition to activities related to the primary use of the Aerodrome, includes aviation-related activities that are secondary to the primary use of the Aerodrome, but have a functional

requirement to be located on or adjoining the Aerodrome, such as an Aviation Centre/Museum and hangar homes.

2. Hangars and hangar homes shall be developed in accordance with any Hood Aerodrome Hangar Design Guidelines and any updates made to the guidelines by the Council.

Information for an Outline Plan

3. An Outline Plan submitted pursuant to section 176A of the Act prior to any site preparation and construction works or for each development stage shall, in addition to the information required under section 176A(3), except where otherwise specified or not relevant, address how the construction and development activities meet the conditions below.

Construction effects

4. Prior to any significant construction work taking place (excluding enabling works but including any earthworks), a construction management plan must be prepared that sets out how the effects of site preparation and construction works (including hours of operation, dust, noise, vibration, the removal of soil, vegetation and debris, traffic and construction vehicle movements, stormwater runoff and sedimentation, and public safety) will be managed. The plan should be prepared with the assistance of a suitably qualified and experienced person and shall demonstrate how compliance with standards such as NZS 6803:1999 Acoustics - Construction Noise will be achieved. The construction management plan shall be submitted at the time an Outline Plan is submitted.
5. The construction management plan required by condition 4 above must be submitted to the Council's Planning and Building Manager for approval at least 20 working days prior to any works commencing. The Council's Planning and Building Manager shall respond within 20 working days indicating whether approval is given or refused.
6. If any urupa, traditional sites, taonga (significant artefacts) or kōiwi (human remains) are exposed during site works, then the following procedures shall apply:
  - a. Works in the immediate vicinity of the site that has been exposed shall cease;
  - b. The site supervisor shall immediately secure the area in a way that ensures that any remains or artefacts are untouched;
  - c. The site supervisor shall notify relevant tangata whenua, Heritage New Zealand Pouhere Taonga, the Masterton District Council and, in the case of human remains, the New Zealand Police; and
  - d. The notification in (c) above shall allow such persons being given a reasonable time to record and recover archaeological features discovered before work may recommence on the exposed site.
7. All construction work must be designed, managed and conducted to ensure that construction and maintenance noise does not exceed the limits in NZS6803:1999 Acoustics-Construction Noise.

Vehicle Access and Safety

8. The design of any vehicle access entrance onto Manaia Road must comply with the relevant requirements of the Council at the time of construction design.
9. All signage must be located and designed to provide for safe sightlines from any vehicle access point.

Existing Easements

10. The Outline Plan submitted for development on Site A, 10 Manaia Road, must address the resolution of any effects on the existing easements on Council-owned properties Lot 3 DP 495682 (Site A) and Lot 1 DP 359891 (immediately adjoining Site A) that provide for legal access for the privately owned 1ha parcel {Lot 2 DP 359891) to Manaia Road, and access for electricity supply, telecommunication, water supply, stormwater disposal and drainage of sewage.

Planting, Screening and Landscaping

11. An Outline Plan for the construction of any part of a project or for any development stage must detail the methods to be used to mitigate the visual effects of development, particularly visual effects from Manaia Road and neighbouring private properties, by such methods as vegetation planting, screening, landscaping, fencing and other boundary treatments.

Stormwater Treatment and Disposal

12. All new water systems, wastewater systems and stormwater systems shall be provided in accordance with NZS 4404:2004 "Land Development and Subdivision Engineering". Low impact stormwater design, using natural treatment and infiltration disposal such as permeable paving, ponds, vegetated swales or wetlands, should be used rather than relying on mechanical or chemical solutions.
13. All wastewater discharge from development on the designated land at Hood Aerodrome will be connected to the District Council's infrastructure on either Manaia Road or John Moncrieff Drive.

Residential Activities

14. All new residential activities (including any hangar home or habitable rooms) must be acoustically insulated in accordance with the requirements of the Wairarapa Combined District Plan for the appropriate air noise zone under Rule 21.1.28(b), or alternatively be acoustically managed by a method certified by a qualified experienced acoustic expert.
15. All new buildings must comply with the obstacle limitation surface requirements of the Wairarapa Combined District Plan under Rule 21.1.28(a).
16. A 'no-complaints' requirement will be placed on any new leasehold or freehold title on Aerodrome land that is used for residential purposes.

Advice Notes

- i. The Requiring Authority shall obtain all other necessary consents and permits and comply with all relevant Council bylaws.
- ii. The Requiring Authority shall obtain all other necessary resource consents and permits in relation to works in a stream bed or waterbody, sediment or stormwater discharges from the Wellington Regional Council.
- iii. Under the Heritage New Zealand Pouhere Taonga Act 2014 an Authority to Modify an Archaeological site is required from Heritage New Zealand before any work takes place on an archaeological site.

### **Conditions**

#### General

1. The development and use of the land shall be in accordance with its designated purpose for 'Aerodrome and Recreation (Airpark Precinct) Purposes', which, in addition to activities related to the primary use of the Aerodrome, includes aviation-related activities

that are secondary to the primary use of the Aerodrome, but have a functional requirement to be located on or adjoining the Aerodrome, such as an Aviation Centre/Museum and hangar homes.

2. Hangars and hangar homes shall be developed in accordance with any Hood Aerodrome Hangar Design Guidelines and any updates made to the guidelines by the Council.

#### Information for an Outline Plan

3. An Outline Plan submitted pursuant to section 176A of the Act prior to any site preparation and construction works or for each development stage shall, in addition to the information required under section 176A(3), except where otherwise specified or not relevant, address how the construction and development activities meet the conditions below.

#### Construction effects

4. Prior to any significant construction work taking place (excluding enabling works but including any earthworks), a construction management plan must be prepared that sets out how the effects of site preparation and construction works (including hours of operation, dust, noise, vibration, the removal of soil, vegetation and debris, traffic and construction vehicle movements, stormwater runoff and sedimentation, and public safety) will be managed. The plan should be prepared with the assistance of a suitably qualified and experienced person and shall demonstrate how compliance with standards such as NZS 6803:1999 Acoustics - Construction Noise will be achieved. The construction management plan shall be submitted at the time an Outline Plan is submitted.
5. The construction management plan required by condition 4 above must be submitted to the Council's Planning and Building Manager for approval at least 20 working days prior to any works commencing. The Council's Planning and Building Manager shall respond within 20 working days indicating whether approval is given or refused.
6. If any urupa, traditional sites, taonga (significant artefacts) or kōiwi (human remains) are exposed during site works, then the following procedures shall apply:
  - a. Works in the immediate vicinity of the site that has been exposed shall cease;
  - b. The site supervisor shall immediately secure the area in a way that ensures that any remains or artefacts are untouched;
  - c. The site supervisor shall notify relevant tangata whenua, Heritage New Zealand Pouhere Taonga, the Masterton District Council and, in the case of human remains, the New Zealand Police; and
  - d. The notification in (c) above shall allow such persons being given a reasonable time to record and recover archaeological features discovered before work may recommence on the exposed site.
7. All construction work must be designed, managed and conducted to ensure that construction and maintenance noise does not exceed the limits in NZS6803:1999 Acoustics-Construction Noise.

#### Vehicle Access and Safety

8. The design of any vehicle access entrance onto Manaia Road must comply with the relevant requirements of the Council at the time of construction design.
9. All signage must be located and designed to provide for safe sightlines from any vehicle access point.

#### Existing Easements

10. The Outline Plan submitted for development on Site A, 10 Manaia Road, must address the resolution of any effects on the existing easements on Council-owned properties Lot 3 DP 495682 (Site A) and Lot 1 DP 359891 (immediately adjoining Site A) that provide for legal access for the privately owned Iha parcel (Lot 2 DP 359891) to Manaia Road, and access for electricity supply, telecommunication, water supply, stormwater disposal and drainage of sewage.

#### Planting, Screening and Landscaping

11. An Outline Plan for the construction of any part of a project or for any development stage must detail the methods to be used to mitigate the visual effects of development, particularly visual effects from Manaia Road and neighbouring private properties, by such methods as vegetation planting, screening, landscaping, fencing and other boundary treatments.

#### Stormwater Treatment and Disposal

12. All new water systems, wastewater systems and stormwater systems shall be provided in accordance with NZS 4404:2004 "Land Development and Subdivision Engineering". Low impact stormwater design, using natural treatment and infiltration disposal such as permeable paving, ponds, vegetated swales or wetlands, should be used rather than relying on mechanical or chemical solutions.
13. All wastewater discharge from development on the designated land at Hood Aerodrome will be connected to the District Council's infrastructure on either Manaia Road or John Moncrieff Drive.

#### Residential Activities

14. All new residential activities (including any hangar home or habitable rooms) must be acoustically insulated in accordance with the requirements of the Wairarapa Combined District Plan for the appropriate air noise zone under Rule 21.1.28(b), or alternatively be acoustically managed by a method certified by a qualified experienced acoustic expert.
15. All new buildings must comply with the obstacle limitation surface requirements of the Wairarapa Combined District Plan under Rule 21.1.28(a).
16. A 'no-complaints' requirement will be placed on any new leasehold or freehold title on Aerodrome land that is used for residential purposes.

#### Advice Notes

- i. The Requiring Authority shall obtain all other necessary consents and permits and comply with all relevant Council bylaws.
- ii. The Requiring Authority shall obtain all other necessary resource consents and permits in relation to works in a stream bed or waterbody, sediment or stormwater discharges from the Wellington Regional Council.
- iii. Under the Heritage New Zealand Pouhere Taonga Act 2014 an Authority to Modify an Archaeological site is required from Heritage New Zealand before any work takes place on an archaeological site.

## MEDU – Minister of Education

"Education Purposes" in the designated purpose means to:

- a) Enable the use of the facilities on the site by and for the educational benefit of any preschool and school age students (i.e. years 0 to 13) regardless of whether they are enrolled at the institution located on the site.
- b) Enable the provision of supervised care and study opportunities for students outside school hours in school facilities.
- c) Enable the provision of community education (e.g. night classes for adults) outside school hours in school facilities.
- d) Include but not be limited to the provision of academic, sporting, social and cultural education including through:
  - i) Formal and informal recreational, sporting and outdoor activities and competitions whether carried out during or outside school hours; ii) Formal and informal cultural activities and competitions whether carried out during or outside school hours; iii) The provision of specialist hubs and units (including language immersion units and teen parenting units) for children with particular educational requirements or special needs.
- e) Enable the use of facilities for purposes associated with the education of students including school assemblies, functions, fairs and other gatherings whether carried out during or outside school hours.
- f) Enable the provision of associated administrative services; carparking and vehicle manoeuvring; and health, social services and medical services (including dental clinics and sick bays).
- g) Enable housing on site for staff members whose responsibilities require them to live on site (e.g. school caretaker) and their families."

| Additional information                                                 | <p>Rollover with modification to name, site identifier, designation boundary.</p> <p>Formerly designation Ds041.</p> <p>Note. In some instances the designation boundary on the Planning Maps may appear to be offset from the underlying cadastre. This is a result of discrepancies within LINZ Core Record System.</p> |

## MEDU – Minister of Education

"Education Purposes" in the designated purpose means to:

- a) Enable the use of the facilities on the site by and for the educational benefit of any preschool and school age students (i.e. years 0 to 13) regardless of whether they are enrolled at the institution located on the site.
- b) Enable the provision of supervised care and study opportunities for students outside school hours in school facilities.
- c) Enable the provision of community education (e.g. night classes for adults) outside school hours in school facilities.
- d) Include but not be limited to the provision of academic, sporting, social and cultural education including through:
  - i) Formal and informal recreational, sporting and outdoor activities and competitions whether carried out during or outside school hours; ii) Formal and informal cultural activities and competitions whether carried out during or outside school hours; iii) The provision of specialist hubs and units (including language immersion units and teen parenting units) for children with particular educational requirements or special needs.
- e) Enable the use of facilities for purposes associated with the education of students including school assemblies, functions, fairs and other gatherings whether carried out during or outside school hours.
- f) Enable the provision of associated administrative services; carparking and vehicle manoeuvring; and health, social services and medical services (including dental clinics and sick bays).
- g) Enable housing on site for staff members whose responsibilities require them to live on site (e.g. school caretaker) and their families."
