FAQs

Can I upgrade or downgrade at any time?

Yes, of course! Lanor was built to grow and evolve with your business. Upgrading your plan will kick in immediately, and downgrades will go into effect at the beginning of the next billing period (the first of the month).

Do I have to sign a long-term contract?

Nope. Lanor is month-to-month. Cancel anytime

What if my number of employees changes throughout the year?

With Lanor, you're only charged for active employees. As you add new team members, your monthly price will increase. But if you have seasonal employees, or if an employee isn't working during a given month, they can be temporarily deactivated and you won't be charged.

I need more answers. Who can I contact?

If you're shopping around, we recommend exploring our site a bit. If you need to get in touch with our team, shoot us an email at hello@Lanor.io
