

STARFISH
AVIATION
— INSURANCE —

Purpose-built aviation liability for **complex risks.**

Starfish Aviation combines deep underwriting expertise, disciplined risk selection and scalable excess capacity to help brokers build clean, efficient insurance towers for best-in-class aviation clients.

FOUR INTEGRATED SOLUTIONS

SCALABLE CAPACITY

AVIATION-FIRST UNDERWRITING

ROUNDTrip COVERAGE

A product suite designed to work together

Four coordinated liability solutions address exposures across the aviation ecosystem.

Non-Owned Liability

01

Protects corporations when use of a non-owned aircraft creates liability for passenger or third-party bodily injury and property damage.

BEST FIT

Corporate and employee aircraft use

Product Liability

02

Specialized protection for manufacturers, distributors and suppliers whose aviation products fall outside traditional market appetite.

BEST FIT

Non-critical components and support equipment

Excess & Ferry Flight Liability

03

Flexible high-limit excess capacity, attachment points and layered tower support for sophisticated and specialized aviation operations.

BEST FIT

Charter, managed fleets, industrial aid and ferry flights

Fixed-Base Operator Liability

04

Broad liability protection for airport service providers and well-managed aviation support businesses operating in complex airport environments.

BEST FIT

FBOs, municipal airports and charter management
