
SNAP WAIVER RESTRICTED PRODUCT LIST (RPL)

File Format & Download Access

Integration guide for retailers and authorized data partners

This document describes the file format, schema, and download options for the SNAP Waiver Restricted Product List (RPL) distributed by Sifter Solutions. It is intended for technical and operations teams responsible for ingesting the RPL into point-of-sale, compliance, or downstream data systems.

01 File Format

The SNAP Waiver Restricted Product List is distributed as a single CSV file packaged inside a ZIP archive. The archive and contained file follow a stable naming convention so consumers can automate retrieval and ingestion.

ARCHIVE FILE	rpl_<rpl id>.zip
CSV FILE	rpl_products_<rpl id>.csv
ENCODING	UTF-8, comma-delimited, double-quoted fields

02 File Definition

Each row in the CSV represents one restricted product. The schema is defined below.

COLUMN	DESCRIPTION
id	The Restricted Product List identifier. Constant within a given list.
upc	The UPC of the product, encoded as a 14-digit GTIN.
department	The retail department associated with the product.
product_name	The human-readable product name.
product_image_url	The filename path for the product image. View this link for information on building the full URL.

EXAMPLE

```
"id","upc","department","product_name","product_image_url"
"34","00078000041705","Beverages","Rc Cola Zero Sugar Soda",""
"34","00855713002151","Beverages","Viloe Aloe Vera Guava Juice Drink",""
"34","00050200589003","Beverages","Sunny D Fruit Drink Green Apple Citrus Punch",""
"34","00722430000169","Beverages","GT's Organic Original Kombucha",""
"34","00853328005000","Beverages","Holy Kombucha Probiotic Tea Raspberry Pomegranate Organic",""
```

Sample rows from rpl_products_34.csv. Header row included for reference.

03 Download Access

SFTP Access

SFTP delivery is available for those that prefer scheduled, credentialed file transfer. Access is provisioned on request and requires approval.

HOST	siftersftp.blob.core.windows.net
USERNAME	siftersftp.<rpl id>.<username>
ARCHIVE	rpl_<rpl id>.zip

Provisioning: Contact Sifter Solutions to request an SFTP account. Credentials are issued after approval.
