Volt®

A Volt we believe renewable energy shouldn't compromise the design, functionality, or value of your home — it should enhance it. Volt exists to create solar solutions that are as beautiful as they are powerful, empowering homeowners to lead the change toward a more sustainable future.

PLANUM

110W | 16.3% efficiency

Volt offers two precision-engineered solar tile models — Lodge and Planum — designed to integrate seamlessly with Australia's most popular concrete and terracotta roof profiles.

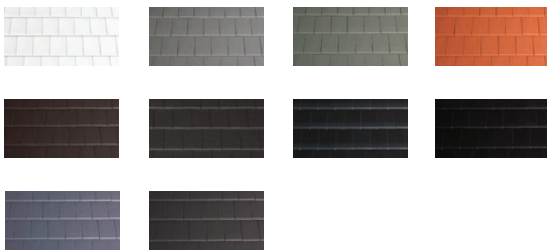

LODGE

105W | 19.5% efficiency

The Volt solar tile system is barely visible from the ground.

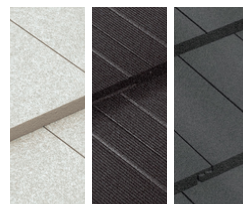

Volt solar tiles are designed to integrate seamlessly into premium roofing systems, maintaining a cohesive look while delivering clean, renewable energy. Each model is crafted to match specific tile profiles for a flawless, integrated finish.

Compatible with:

La Escandella's Planum terracotta tiles.

The Planum model is designed specifically for premium terracotta roofs, delivering a natural, high-end look while maintaining the distinct clean lines of the Planum tile. It preserves the beauty of traditional terracotta while introducing the benefits of integrated solar.

CONCRETE TILE
PROFILES

Compatible with:

Bristle Roofing's concrete tiles in the Premiere, Eton, and Prestige profiles.

The Lodge model is ideal for modern concrete-tiled roofs, blending effortlessly into flat-profile designs. It offers a smooth, refined appearance that enhances both form and function — perfect for architectural homes with a contemporary edge.
