SOP - Daily Filtration Routine

Two 250g bags a day. One bag serves all three cookers, one serves both fryers.

WHAT GOES IN, PER DAY

2 bags × 250g - one into Cooker 1, one into Fryer 2.

IF A COOKER IS STILL NEEDED LATER IN THE DAY

Filter it through the cake from Fryer 2 and Fryer 1 - **no extra bag.**

1

Cooker 1 1 bag · 250 g

At working temperature, pour the bag into the oil. stir 1 minute each way, then circulate 10 minutes through the filter machine.

2

Cookers 2 and 3 no extra powder

Once the filter cake has formed, run Cooker 2 and then Cooker 3 through that same cake for 10 min each.

3

Fryer 2 1 bag · 250 g

Scarab the used cake out. At working temperature, pour the bag into Fryer 2, stir 1 minute each way, then circulate 10 minutes through the filter machine.

4

Fryer 1 no extra powder

Filter Fryer 1 through the filter cake created in Fryer 2. then circulate 10 minutes through the filter machine.
