Explore Risk Free

The cost for faith-based IPSAT independent contractor coach training and certification is \$2,750. You can explore our process risk free by experiencing the IPSAT just like the people you will coach for \$299. If you follow our process and don't believe we delivered the promised value, we'll give you a full refund.

If you like what you experienced and want to proceed with coach training, we'll credit the \$299 toward the cost of your certification package.

"I became an IPSAT certified coach because I believe in the tool and have observed the positive outcomes with my clients. The training and certification process is straightforward and effective. I'm impressed with the commitment to excellence and continuous improvement of the IPSAT web application. I highly recommend IPSAT certification as a way to expand the reach of your coaching business."

Phase 1: coaches experience the IPSAT just like the people they will coach. This means each coach engages the five pre-IPSAT assessments, the IPSAT and have a 75-minute virtual coaching session. (The only difference is we record the coaching session for people in the coach training pipeline.)

Phase 2: two online courses, each one includes 3-4 hours of content. Each course must be completed within 15 days of enrollment. In between the two courses, coaches listen to the recording of their IPSAT coaching session (from Phase 1).

Phase 3: recorded practice IPSAT coaching session that ideally happens within two weeks of coach training session 2. After the practice session, each coach receives a written feedback report and has a phone call to debrief the feedback, and determine if they are ready to go or need additional practice sessions.
