Secondary	CBSE board	78%	2010

## Experience

- Channel Bridge Software Lab (Summer Internship)** *June 2021- July 2021*  
Summer internship at Channel bridge software lab, a niche technology solution and consulting service company based in Bangalore specializing in the enterprise (B2B) connectivity and visibility solutions, supply chain consulting, and analytics services bringing all channel sales and distribution partners and suppliers onto one unified system. Redesigned the portal for NSM (National Sales Manager).
- Freelance (Architecture/Interior)** *May 2018 - Feb 2020*  
Worked as freelancer dominantly in the field of Interior/architectural projects from designing to execution, dealing with clients, suppliers, workers to managing the costs of the overall project. Two private residential interior projects and one bar cum restaurant has been completed and proposed a small cafe design project.
- Intern at DESA House, Delhi** *July 2017-March 2018*  
Interned at DESA House (an architectural and interior design firm based in Delhi) in the final year of B.Arch course. Few of the design works have been finalized and executed at sites. Few are under construction.

## Project(s)

- Clean Bin (Smart waste management system)** *Jan-April 2021*  
*Dr.Shakuntala Acharya, Dept. of Design, IIT Guwahati*  
In view of the current deteriorating scenario of solid waste in India, the project explores the possibility of design intervention to reduce the solid waste generation at source and providing alternative ways to get rid of waste, promoting awareness and helping to keep private as well as public spaces clean and healthy.
