The vessel was taking a pilot vessel '*Takitimu II*' near Bluff, Southland, on 26th December 2024. The vessel was taking a pilot vessel '*Takitimu II*' near Bluff, Southland, on 26th December 2024. The investigation found that the Master had been overreliant on visual references to steer and should have utilised the electronic navigation systems on board to help them navigate in the limited visibility conditions, but was not proficient in their use. The vessel had also too high to alter course in time once the hazard had been identified.

- **Malta** – The MSIU has released an investigation report into a fatal accident on board the bulk carrier '*Ocean Century*' in the port of Gwangyang, Republic of Korea on 24th January 2025. A surveyor became trapped between the hatch and the coaming of a cargo hold as it was being closed, sustaining severe head injuries. The investigation found that as the crew member operating the hatch cover had no visibility of the surveyor, who had been in that particular area as there were no witnesses to the accident.
