

## Maths Minions 2025 – 2026

### What We Do!

The **Maths Minions** are a pupil group that meets **every two weeks** to make maths fun and exciting for everyone in our school.

#### **Magic Number iMovie Videos:**

We work together to plan, film, and edit creative videos that feature “Magic Numbers.” These videos encourage pupils to take part in fun maths challenges outside of school.

#### **School Gazette Collaboration:**

We design and write the **Maths Minion page** for the school gazette. This includes puzzles, challenges, and interesting maths facts to inspire our school community.

#### **Assemblies:**

We plan and deliver assemblies about all things maths. In the Spring term, we will be delivering our famous ‘NSPCC Number Day’ assembly, where we promote a love for maths whilst creating a little competition between staff and learners.

Our goal is to **promote a love of maths** through creativity, teamwork, and technology!
