

Autumn 2025 S Hawksworth

RELATIONSHIPS AND SEXUALITY POLICY

Griffithstown Primary School

Introduction

The purpose of this policy is to provide all stakeholders (learners, staff, parents/carers, governors, and external organisations) at Griffithstown Primary School information about our Relationships and Sexuality Education (RSE) provision.

High quality RSE is fundamental in creating a safe school environment where learners grow and develop positive, healthy relationships for life. Fostering positive attitudes towards gender diversity, equality and respectful relationships. This policy supports our approach to preventing violence against women, domestic abuse, and sexual violence (VAWDASV). At Griffithstown Primary School we believe all learners have the right to receive high-quality, holistic, and *inclusive* education about relationships and sexuality.

At Griffithstown Primary School we recognise that the world around us is evolving rapidly and significantly. We are inclusive of diversity. We fully comply with our duties under the Equality Act 2010 and the RSE Code.

Griffithstown Primary School actively participates in the Welsh Network of Healthy Schools Scheme (WNHSS) which provides a framework for the development of a whole school approach to RSE through effectively linking policy, staff, development of a spiral curriculum, school ethos, learner voice and the wider community.

Working with Parents and Carers

We support parents and carers in understanding why high quality, inclusive RSE at Griffithstown Primary School is important to the development and learning of every young person. Parents and carers are encouraged to discuss concerns they may have with their class or form teacher in the first instance or the Health and Wellbeing Lead (Miss C Evans).

Legislation

Relationships and Sexuality Education (RSE) is a statutory requirement in the new Curriculum for Wales framework and is mandatory for all learners.

The Relationships and Sexuality Education (RSE): statutory guidance (2022) sets out statutory guidance in relation to RSE and is published under section 71 of the Curriculum and Assessment (Wales) Act 2021 (the Act); it is designed to assist those responsible under the Act to design RSE as part of the curriculum. The Curriculum for Wales – Relationships and Sexuality Education code contains mandatory requirements for RSE. It sets out the themes and matters that must be encompassed for learner from 3 to 16 years old.

Our school policy and curriculum has been developed in line with Welsh Government statutory guidance and legislative summary and aligns with the Equality Act 2010.

UNCRC

At Griffithstown Primary school we discuss RSE in the context of children's rights as protected by the United Nations Convention on The Rights of the Child.

The rights below underpin and shape our RSE curriculum and school policy:

- non-discrimination (Article 2)
- be heard and involved in decision-making (Article 12)
- freedom of expression (Article 13)
- follow your own religion (Article 14)
- have privacy (Article 16)
- access information to make informed decisions (Article 17)
- not be harmed and should be looked after and kept safe (Article 19)
- experience the highest attainable health, access to health facilities, and preventative health care (Article 24)
- education that prepares children to understand others (Article 29)
- protection from sexual abuse and exploitation (Article 34)
- get special help if they have been abused (Article 39)

Everyone who works with children at Griffithstown Primary School will always do what is best for each learner, as part of our Whole School Approach to RSE (Article 3).

Period Dignity

Our school fully supports the Welsh Government Period Dignity Strategy Action Plan, which aims to end the stigma and shame associated with periods.

We will support the plan by ensuring the following:

- 1. Provision of free resources, including environmentally friendly resources, that learners can access from the main office.
- 2. A robust RSE curriculum that covers the menstrual cycle and periods for all genders.
- 3. A safe and suitable environment for applying/changing products.
- 4. Provision of sanitary bins, in learner toilets to support the safe and environmental disposal of products.
- 5. Clear communication to learners/parents/carers informing them of the available free resources on site, and how they can access them.

Aims of RSE

Griffithstown Primary School is fully inclusive. We use a whole school, strategic approach to fully include and respond to the needs of all our learners and families.

RSE has a positive and empowering role in learners' education and is vital in supporting them to realise the Four purposes as part of a whole-school approach.

Our RSE curriculum enables learners to form and maintain a range of relationships, based on mutual trust and respect, this is the foundation of RSE at our school.

Good quality RSE empowers learners to make responsible, well-informed decisions and to be able to understand themselves and others.

Equipping learners to challenge harmful stereotypes and perceptions and be able to seek help and support.

Management of the RSE Programme

The Headteacher is the strategic lead for RSE and the Health and Wellbeing Lead (C Evans) is responsible for identifying any training needs of staff, resources, listening to learner activities and keeping up to date with developments by attending appropriate training. The Health and Wellbeing Lead

will audit RSE in line with the review of this policy and/or considering any new developments, using the audit tool.

The Governing Body is responsible for ensuring that the RSE policy is up to date, monitored, consulted upon, effectively implemented and is widely disseminated throughout the whole school community.

RSE Curriculum

RSE is taught by class teachers through discreet lessons and cross-cutting themes. Teaching strategies and techniques will vary according to the needs of learners. The school seeks to give quality education on RSE to all learners.

The school seeks to provide accurate, unbiased information on RSE to learners as part of our pluralistic approach. This means that where questions of values are concerned, we provide a range of views on a given subject commonly held within society. As they develop, learners are encouraged to take increasing responsibility for their own learning.

RSE will be taught through the Health and Well-being AOLE and cross-cutting themes and will incorporate all five statements of what matters.

RSE in the curriculum focuses on three broad strands:

- Relationships and identity: helping learners develop the skills they need to develop healthy, safe, and fulfilling relationships with others and helping them to make sense of their thoughts and feelings.
- **Sexual health and well-being**: helping learners to draw on factual sources regarding their sexual and reproductive health and well-being, allowing them to make informed decisions throughout their lives.
- Empowerment, safety and respect: helping to protect learners from all forms of discrimination, violence, abuse and neglect and enabling them to recognise unsafe or harmful relationships and situations, supporting them to recognise when, how and where to seek support and advice.

Within our school, in order to progressively teach these areas, we utilise the 'Jigsaw Mindfulness PSHE' approach to delivering RSE within our school. This forms part of a wider delivery of Health and Wellbeing across the School. The aim of our RSE curriculum is to develop the 3 above elements through the following Pupil friendly theme:

- Being me in my World covers a wide range of topics, including a sense of belonging, welcoming others and being part of a school community, a wider community, and a global community; it also looks at children's rights and responsibilities, working and socialising with others, and pupil voice.
- Celebrating Difference focuses on similarities and differences and teaches about diversity, such as disability, racism, power, friendships, and conflict; children learn to accept everyone's right to 'difference', and most year groups explore the concept of 'normal'; bullying what it is and what it isn't, including cyber bullying
- Dreams and Goals aims to help children think about their hopes and dreams, their goals for success, what personal strengths are, and how to overcome challenges, via team work skills and tasks. There is also a focus on enterprise and fundraising. Children learn about experiencing and managing feelings of pride, ambition, disappointment, success; and they get to share their aspirations, the dreams and goals of others in different cultures/countries, and their dreams for the world.
- Healthy Me covers two main areas of health: Emotional health (relaxation, being safe, friendships, mental health skills, body image, relationships with food, managing stress) and Physical health (eating a balanced diet, physical activity, rest and relaxation, keeping clean, drugs and alcohol, being safe, first aid) in order for children to learn that health is a very broad topic.
- Relationships has a wide focus, looking at diverse topics such as families, friendships, pets and animals, and love and loss. A vital part of this theme is about safeguarding and keeping children safe; this links to cyber safety and social networking, as well as attraction and assertiveness;

- children learn how to deal with conflict, their own strengths and self-esteem. They have the chance to explore roles and responsibilities in families, and look at stereotypes. All lessons are delivered in a developmentally appropriate way so that they meet children's needs.
- Changing Me deals with change of many types, from growing from young to old, becoming a teenager, assertiveness, self-respect and safeguarding. Self and body image, puberty, attraction and accepting change are diverse subjects for children to explore. Each year group thinks about looking ahead, moving year groups or the transition to secondary school. Life cycles and how babies are made and grow are treated sensitively and are designed to meet children's needs. All year groups learn about how people and bodies change. This theme particularly links with the Science & Technology AoLE when teaching children about life cycles, babies and puberty.

These areas of learning are taught within the context of family life, taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include heterosexual partnerships, single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).

Griffithstown Primary School also uses the following resources:

- SENSE resources
- Growing Up resource
- NSPCC
- Hafan Cymru (Spectrum)

Involving Outside Agencies:

When outside agencies provide sessional learning opportunities for learners, the school will ensure that:

- The school and the external provider have agreed the aims, content and approach to be adopted.
- The school has checked that the work of the agency is known to them and is considered appropriate in respect of safeguarding/child protection procedures and equality.
- The school has made the provider aware of any relevant school policies.
- The school has planned for the provider to be actively and always supported by a teacher throughout the visit.

Understanding the nature of progression in RSE

At Griffithstown Primary School we follow the Phase 1, 2 and 3 approach, as outlined by the Welsh Government's Code in terms of what content is covered by each age range. The principles of progression across the <u>Health and well-being Area</u> offer guidance to <u>progression</u> in RSE. Our curriculum revisits content, themes and topics as outlined in the preceding phases set out in the Code, reinforcing and building on learners' developing understanding and changing needs.

RSE for learners with additional needs

We consider how best to meet the needs of learners whose additional needs means that their understanding of sexual health and well-being may not match their chronological age.

All our staff, including ancillary staff, physiotherapists, nurses and carers are aware of the school's approach to RSE when working with learners with additional learning needs.

Safeguarding and Confidentiality

Our RSE curriculum supports learners to be able to build their knowledge and understanding of how to recognise harmful sexual behaviours, discrimination, abusive relationships, and violence and develop an understanding of consent. Learners may disclose information to school staff that cannot remain confidential. When this occurs, our staff will follow the guidelines below:

- Remind learners that staff cannot offer unconditional confidentiality.
- Inform learners first if staff are going to break confidentiality.

- Where appropriate, encourage learners to talk about any worries and concerns they have with parents/carers.
- Ensure learners are supported adequately by an appropriate member of staff.
- Where appropriate, issue/signpost information on contraception. including precise information regarding where young people can access Health Care Services (learners over the age of 13 only).
- Always follow our Safeguarding Policy if there are child protection concerns.

Signposting to services

Learners can access a range of information and advice through:

- The school's wellbeing team.
- The C Card Scheme (ABUHB Aneurin Bevan University Health Board).
- ABUHB School Nursing.

Positive, protective, and preventative RSE

Building on the Code, the approach to RSE in our school is positive, protective and preventative. We support learners to:

- have access to objective, supportive and inclusive information about growing up, changing, relationships, reproductive and sexual health.
- understand and cope with change, conflicts and pressure.
- recognise potentially harmful behaviours in relationships and know how to seek support.
- have the knowledge to recognise all forms of discrimination, violence, abuse and neglect, including violence against women, domestic abuse and sexual violence.
- seek help and advice where appropriate.

At Griffithstown Primary School we endeavour to create safe and supportive learning environments. This helps to create trust and allow learners a safe space to consider learning, ask questions and express their thoughts and feelings.

We aim to encourage respectful conversation. This can be achieved by developing a working agreement of ground rules with learners. This helps to maintain professional boundaries and keep learners and practitioners safe. For example, creative approaches can help learners share their questions, views and experiences anonymously, allowing more open, honest discussion.

Distancing techniques will also be used to help learners to discuss sensitive issues and develop their decision-making skills in a 'safe' environment. The school includes a question box within all RSE lessons for pupils to anonymously ask a question. Any information that the teacher feels would support the class will be followed up in a later activity. Sometimes an individual learner may ask an explicit or inappropriate question. If this situation arises, the learner will be reminded of the class agreement.

As part of the RSE programme in Griffithstown Primary School all teachers will use the correct biological terminology.

Harmful Sexual Behaviour

We recognise that peer-on-peer sexual harassment is highly prevalent in the lives of young learners and at Griffithstown Primary school, we have adopted a whole-school preventative and proactive approach to dealing with it.

This includes providing learners with assurance that school staff will take every incidence of peer-on-peer sexual harassment seriously and work in partnership with parents/carers and external agencies. We will provide sufficient, cumulative, and beneficial learning opportunities for learners across the whole age range about harmful sexual behaviours. This includes providing a safe, enabling, and supportive environment for open and honest discussions.

We will ensure all school staff receive regular and purposeful professional learning opportunities on, for example, relationships, sexuality, diversity, gender transitioning and harmful sexual behaviours.

Equality Statement

Under the provisions of the Equality Act, schools must not unlawfully discriminate against learners on the basis of their age, sex, race, disability, religion or belief, gender reassignment, pregnancy or maternity, marriage or civil partnership, or sexual orientation (collectively known as the *protected characteristics*). Schools must also make reasonable adjustments to alleviate disadvantage.

Our school recognises that people have different needs, requirements and goals and we will work actively against all forms of discrimination by promoting good relations and mutual respect within our community and between learners, parents, staff, governors/management committee members and partners.

Monitoring and Evaluation

The RSE curriculum will be monitored and evaluated by S Hawksworth annually to ensure that it remains relevant and up to date.
