# BRISTOL CLASSIC RUM

---

## Reserve Rum of Barbados 2011 - 47% vol/abv.

### A Barbados reputation for Rum excellence

With a production history dating back to the early 17th century, Barbados is undeniably the birthplace of Rum. The island's industry grew rapidly, and by the 18th century Barbados dominated the Rum trade, firmly establishing its position among the world's best exporters of this most exquisite Spirit.

Barbados rightly gained and continues its fabulous reputation for producing fine Rum, largely attributed to the exceptional expressions crafted by Richard Seale and the team at The Foursquare Distillery. This award-winning and renowned distillery not only offers ultra-premium spirit but also showcases distinctive releases that set Foursquare apart from all other Distilleries, making it the envy of the Caribbean.

Bristol Classic Rum goes to great lengths to search out special casks of the greatest Rum available. Our Reserve Rum of Barbados 2011 is a stunning blend of pot & column still, aged in American refill casks for six years before making its way to the UK in 2017. Here, it continued to mature in moist-rich warehousing until it was finally selected for bottling in 2022 at 47% vol/abv.

Pale gold colour leads to soft nose with fruit and well-integrated wood. Here you can also detect hints of of tangerine and dried fruit. This is a typical Foursquare profile displaying the blend of column and pot stills to provide the classic touch of tar, which follows on the palate to a lingering finish. There is enormous elegance as a result of controlled maturation between tropical and continental maturation.

It is very drinkable, so enjoy over ice or with a splash of water.

This Reserve Rum of Barbados 2011 is kept pure and unadulterated, with no additional sugar, chill-filtration or colouring.
