

# BRISTOL CLASSIC RUM

## Caribbean Collection - 40% vol/abv.

### A delightful blend of young Rum from Trinidad & Tobago

Rum is a drink which captures all the characteristics and influences of its material and manufacture like no other.

Throughout the past 30 years, the Bristol Classic Rum collection has captivated the interest of numerous Rum enthusiasts, particularly due to its intriguing assortment of vintages, such as those from the Caribbean island of Trinidad & Tobago.

Caribbean Collection is a blend of young Rum specifically crafted by owner John Barrett, highly-experienced taster and supporter of Rum in their most natural state. This combination of high-quality 3-year-old spirit is perfect for enjoying whether it be warm summer months in the garden, or cosy winter evenings in front of home fires.

As the introduction-level blend, it is a perfect representation of the 'British style' Rum. This softer style makes for an approachable and versatile drink. It's delicious neat, on the rocks, in cocktails or mixed with cola, ginger ale or your favourite mixer.

Distilled by Trinidad Distillers Ltd. on their wonderful column still, this spirit is shipped to our cellars in the UK and then bottled at 40% vol/abv. after undergoing chill-filtration. Most importantly, this does not contain any additional sugar, maintaining authentic flavours. The aroma profile combines notes of toffee and burnt sugar on the nose, while the palate offers a light and clean taste with hints of fruit and spice.

This 2023 release was filled to the very familiar Bristol Classic Rum glass, enhancing its allure for new and loyal consumers. This shape and style of bottle holds great significance within the Premium Rum World. Additionally, we have included a Gift Tube in order to better align with our current BCR range.
