

## ABOUT SUSBROCK

The East Westphalian company Sudbrock, based in Rietberg-Bokel, can look back on over 100 years of history. Sudbrock is characterised by family tradition and a clear vision. As a medium-sized company with a sustainable vertical range of manufacture 'from tree trunk to designer furniture', Sudbrock develops and produces truly unique, high-quality living room furniture, wardrobes and bedroom furnishings with around 120 employees. With exceptional expertise in wood and lacquer and unlimited variety to suit customer requirements, this range successfully captures the spirit of the times on the market.

### HEART. FREEDOM. VALUE.

SUSBROCK furniture craftsmanship stands for individual system solutions. For heart, freedom and value. This is what makes SUSBROCK unique.

#### HEART

It is a passion for genuine craftsmanship. For inspiring living spaces. For design that lasts. Reduced to the essentials: carefully selected woods, perfect surfaces and the highest standards of precision and workmanship. Noticeable down to the smallest detail. And it is our passion to put all our craftsmanship and skills into a single piece of furniture: yours. This is how Sudbrock creates very special pieces of furniture that make living spaces more beautiful and people simply happy. And that is what our heart beats for.

#### FREEDOM

Creating unmistakable unique pieces. Be free and creative. With infinite variety, limitless design options, inspiring simplicity and timeless design. Made to fit you to the millimeter and tailored to you down to the last detail. To your home, your personality, your wishes and your life. Your very personal piece of furniture in form, colour and function - perfectly adapted to you. That's how we at SUSBROCK turn space into freedom.

#### VALUE

Sustainability and responsibility. Thinking and acting. Family tradition and vision. Noticeable in every millimeter. Breaking new ground with boundless innovation. For 3 generations. Our heart beats in Bokel. Proud of our special origins and region. And of the people behind SUSBROCK today. Who do not simply produce furniture with commitment, passion and outstanding craftsmanship. But rather new values for the future, day after day.

## OUR JOURNEY IN SUSTAINABILITY

SUDBROCK stands for the resource-conserving use of wood. With focus on sustainable materials: solid wood, real veneer, MDF and E05 chipboard, which are finished with environmentally friendly hydro-UV lacquer.

Sudbrock process logs from certified sustainable forestry, which are inspected and selected by the Sudbrock Team in local forests. Each tree trunk is utilised sparingly, down to the last chip.

Sudbrock furniture are able to be maintained by repairing paintwork and woodwork and replacing fittings and individual components. The solid wood furniture in particular are fully recyclable and therefore does not generate any waste. The use of veneer conserves the resources of slow-growing woods.

Local production on site guarantees short transport routes and the highest quality.

Our goal: producing long lasting design with every piece of furniture.

## OUR ROOTS IN SOCIAL IMPACT

Sudbrock have had deep ties to our home town and the surrounding region for over 100 years and remain actively engaged in the local community in Bokel.

For the past 12 years, we have partnered with the local primary school and continue to support social institutions, including the local kindergarten and the Caritas clothing bank nearby.

At Sudbrock we cultivate a respectful and supportive working environment. Open communication on an equal footing as well as regular staff parties, family days and excursions strengthen team spirit. As a long-established training company, we are proud to have been providing continuous apprenticeships. Every year, three trainees starts their own Sudbrock Journey, whom we take on permanently whenever possible.
