

PARACHILNA

About the Brand

Parachilna is a Barcelona-based decorative lighting brand founded in 2013, created as a platform for designers to explore form, materiality, and the emotional potential of light. Rooted in a long-standing family legacy in the lighting industry, Parachilna merges traditional craftsmanship with contemporary design. Each piece is the result of a meticulous process that brings together master artisans—from Italian glassblowers and ceramists to cutting-edge LED technology specialists. The brand stands at the intersection of heritage and innovation, committed to producing lighting objects that are both expressive and enduring.

_Family Legacy

Though Parachilna was founded in 2013, it's built on a legacy that dates back to the 1930s, when the Riera family first stepped into the world of lighting. Three generations later, we continue that journey—with a renewed spirit and a vision rooted in craftsmanship, innovation, and design culture.

Parachilna is a platform for bold ideas. We collaborate with designers and artisans who challenge convention, blending tradition with experimentation. Through light, we explore emotion, material, and meaning—always aiming to create objects that feel both timeless and forward-thinking.

_Humble Luxury

At Parachilna, we believe true quality takes time. It comes from patience, intention, and a deep respect for craft. We embrace the process—sketches, tests, adjustments—knowing there's beauty in every step, not just the final piece. But precision doesn't mean rigidity. We leave space for play, for mistakes, for joy. We don't take ourselves too seriously, and that freedom fuels creativity. What we create has soul because it's shaped by honesty, humility, and a genuine love for the journey.

_Off the Grid from Barcelona

Parachilna is based in Barcelona, a city where tradition and innovation have always gone hand in hand. Just outside, in the industrial area of Colonia Güell—once shaped by Gaudí—we work in a space full of history and quiet energy that naturally flows into what we create.

Our name comes from a remote town on the edge of the Australian desert, a symbol of how we see ourselves: on the border of the known, always exploring. We turn bold ideas into real objects, giving them shape here, in the heart of Barcelona.

Featured Products

GWEILO by Partisans

This collection is composed of a thermoformed acrylic and an extruded aluminum profile housing an LED strip. They are carefully hand-sculpted one by one in Barcelona. Due to its artisanal process, each piece is unique.

[Production Video](#)

OÏPHORIQUE by Atelier Oi

Floor lamp providing ambient light composed of a steel base finished in black chrome. The steel structure enclosing the LED light-source is clothed with a plissé light grey textile which is anchored with a series of chrome rings shaping it in a totem-like figure.

SERIE C by Max Milá Serra

Originating from one of Max's early experiments where he added a small LED module to a paper envelope and pierced it to let a narrow beam of light shine through.

We developed the concept into a full-scale pendant lamp. The result is an oversized paper envelope suspended from two points. One featuring a magnetic pivot that can be easily adjusted to direct the beam of light.

TOPURO by Guido Valín

Topuro is a lamp born from the desire to work with the idea of the dematerialization of light—how it moves through space while gradually losing its intensity. To achieve this, it employs a stainless-steel structure and a series of acrylic discs as a metaphorical gradual progression.

PETRA by Jordi Veciana

A cylindrical base, a conical shade both made from a single piece of alabaster. Pure utility, pure material. Simply beautiful.

ABALLS by Jaime Hayon

Aballs balances the refinement of ceramics with the softness of opal blown glass. Its timeless design and finishes in black, white, and gold adapt to various applications: table, suspension, wall, and chandelier in different sizes.

Recent Press Releases

3daysofdesign – Denmark’s Annual Design Festival (June 2025)

From June 16-18, we created *Apartmento Secreto* at 3 Days of Design in collaboration with Ariake, the Japanese furniture brand known for its elegance and craftsmanship. We blended our lighting with their designs to create a calm, intentional space rooted in material and process. Two brands with different origins, sharing the language of design. Here, we unveiled four new colors for *Oïphorique*, adding fresh tones to one of our most recognizable collections.

Salone del Mobile – Milan Design Week Participation (2025)

In conjunction with the *Topuro* launch, Parachilna participated in *Salone del Mobile / Fuorisalone 2025* in Milan, underlining the brand’s growing global presence. The company’s installation hosted at the *Convey* showroom in *Porta Venezia* showcased Parachilna’s commitment to contemporary design on an international stage. Parachilna’s return to *Milan Design Week* came with a captivating display of its collections, reinforcing relationships with designers and media worldwide.

Issey Miyake + Atelier Oï – Milan Design Week Collaboration (2025)

During *Milan Design Week 2025*, Parachilna collaborated with A-POC ABLE ISSEY MIYAKE and Swiss design studio atelier oï on the new “A Series” lighting project. The prototype pendant light from this collaboration was unveiled at *Issey Miyake’s* Milan flagship store, merging Parachilna’s commitment to craftsmanship and high-quality materials with *Issey Miyake’s* innovative textile techniques. The result is a fusion of design, materials, and light that reflects the spirit of co-creation.
