## The Form Follows X Three Days of Design 2026

Celebrating its First Anniversary with a Pop-Up Exhibition  
at Café Niko Showcasing New XD Chair Series by Klemens Schillinger

Copenhagen, Denmark – During this year's **3 Days of Design**, The Form Follows proudly celebrates its first anniversary with a special pop-up exhibition at **Café Niko** in Copenhagen. For the duration of the festival, the café will transform into an immersive design space where visitors can discover the latest additions to the brand's evolving collection – including new pieces from the XD Chair series by the renowned Viennese Designer Klemens Schillinger.

Founded on the principle that strong concepts lead to meaningful objects, The Form Follows creates contemporary furniture and interior pieces that combine sculptural clarity with everyday functionality. The studio stands for reduced aesthetics, thoughtful material choices, and designs that blur the line between art and utility. Each piece reflects a dedication to craftsmanship, innovation, and a timeless design language.

At Café Niko, visitors will get an exclusive first look at the latest additions to the XD Chair series. With a subtle nod toward outdoor use, the new pieces explore how the XD Chair can transition seamlessly between interior and exterior settings – maintaining its strong sculptural presence while offering enhanced versatility and comfort.

The exhibition invites guests not only to explore and engage with the pieces in an informal café atmosphere, but also to celebrate The Form Follows' first year of creative growth. Visitors who stop by the pop-up will have the opportunity to win selected The Form Follows products through an exclusive on-site giveaway.

By temporarily taking over Café Niko, The Form Follows creates a space where design, community, and celebration intersect – embodying the spirit of Copenhagen's 3 Days of Design: open, inspiring, and collaborative.

### Event Details

Location: Papirøen 81, 1436 København
