WHERE IDEAS COME TO LIFE

Selected Projects is an exhibition platform in the largest production residency of Denmark. For 3daysofdesign, the old warehouse transforms into a showroom for projects related to the workshops. The displayed projects range widely in expression, materials, and artisanship. All are of the highest artistic quality, carefully selected for their originality, materiality, and sustainability.

EVENTS IN THE EXHIBITION

- Alberte Svendsen in conversation with Mathias Mentze and Alexander Ottenstein
- Meet 13 Designers in Thirty Minutes
- Guided Tour around the Workshops

Dates will be published later

EXHIBITION DESIGN & CURATION

For 3daysofdesign in the old warehouse the Architect duo, Mentze Ottenstein, handpicked the 13 exhibitors.

With a profound sensability for natural materials, the choice was made to fit an idea of combining material based art, craft and tactility in one total installation.

The duo works with spaces and objects in a broad sense, and have been particularly involved in exhibition design for a wide range of museums, including Glyptoteket, the David Collection and Designmuseum Danmark.
