

## PRESS RELEASE

April, 2026

The SKYWALK® design redefines the monolithic essence of kitchen architecture, merging the alluring translucent White Tiger granite with a bold bronzed brass in a diagonal shift creating a captivating symbiosis. photo: eggersmann

### **eggersmann x Design / Dialogue 2026**

#### **Transforming standards. Defining benchmarks.**

Driven by a passion for bringing extraordinary concepts and materials into the kitchen, eggersmann constantly creates special solutions – from the initial design approach to the finest details of execution.

SKYWALK® is an unconventional design which redefines the monolithic character of kitchen architecture, bringing to life unique materials and craftsmanship. At the intersection of nature and precision, the sculptural island combines beautiful quartzite with authentic stainless steel in a diagonal shift creating a captivating symbiosis. The island elements made of solid natural stone and genuine metal appear to float – a central structural element guarantees stability and accommodates the essential installations.

# eggersmann

For the first time in Copenhagen, eggersmann presents the SKYWALK® design as part of the exhibition Design / Dialogue at the institution Den Frie, where conversation, exchange, and cultural relevance shape a highly curated setting.

## DESIGN / DIALOGUE

### **Sophisticated since 1908**

Every detail counts and has a great impact on the overall appearance of an eggersmann: every joint, every miter, every screw. With this obsession for detail, eggersmann creates distinctive one-of-a-kind kitchens.

Since 1908, the company represents both reliability and the mindset of the people behind the brand. With expertise and experience, attention to detail, and craftsmanship, exceptional systems have been developed ever since.

It's not about perfection, it's about authenticity and dedication, about genuineness and honesty.

We listen, we look, we think ahead. Out of conviction and consistency, not just as a matter of principle. Now in the fifth generation of the Eggersmann family.
