Tokio. at [3daysofdesign](#), Copenhagen, June 10 - 12, 2026

FOR IMMEDIATE RELEASE

## **Tokio.** at 3daysofdesign

Ljubljana, Slovenia, EU - May 2026 - Tokio. presents a spatial installation at 3daysofdesign, developed in dialogue with glass artist Elis Monsport.

The exhibition brings together a large-scale *UEBU Hachi* composition, *Mori* shelving, *Totem* table lamp, and carbon fiber lighting objects in pendant and floor configurations.

Glass, carbon fiber, aluminum, and wood are placed in direct relation, exploring how contrasting materials operate within a unified spatial language. Reflection meets structure. Precision meets tactility.

Light is treated as a constructed element, shaping the space through rhythm, proportion, and controlled intensity. Each piece functions individually and as part of a larger architectural composition.

Designed and produced in Ljubljana, Slovenia, EU, Tokio.'s work is defined by material clarity, precision, and long-term relevance.

*About Tokio.:*

*Tokio. is a contemporary design brand based in Ljubljana, Slovenia, EU - where all products are designed and made. With a focus on high-end, technically advanced products, Tokio. caters to the discerning individual with an eye for the future.
