

# Wünder Unveils 'The Lounge' at 3days-of-design: Belgian Craftsmanship Meets Nordic Sophistication

**COPENHAGEN** – During 3days-of-design in Copenhagen, Wünder is proud to launch **The Lounge**: a modular lounge system that effortlessly brings indoor comfort to the great outdoors. Developed and manufactured in Belgium, this unique design translates the softness and generosity of indoor seating into a durable outdoor solution with a bold, contemporary aesthetic.

## Unparalleled Comfort, All Year Round

The Lounge features a refined, powder-coated steel frame paired with generous, water-repellent cushions to ensure exceptional seating comfort, regardless of the season. By utilizing high-quality **Sunbrella outdoor fabrics**, the collection maintains its vibrant color and premium quality over time, even under intensive use and exposure to the elements.

## Ultimate Flexibility and Modularity

The modular architecture of The Lounge offers maximum versatility, ranging from compact, intimate setups to expansive, inviting lounge configurations. Base modules, corner units, and ottomans can be easily combined and rearranged, allowing every space to develop its own unique character.

## Belgian Design and Sustainability

Setting itself apart through conscious material choices, The Lounge offers options for **recycled fabrics** and features a robust, long-lasting construction. The result is a versatile and future-proof piece of furniture that naturally integrates Belgian design, luxury, and sustainability
