

**Vandra Rugs** introduces a refined collection of new releases that highlight its ongoing dialogue between craftsmanship and contemporary design. The collection features distinctive rugs by *Neisha Crosland*, *Droulers Architecture*, and *Maja J. Starander*, each bringing their own visual language, from graphic precision to architectural rhythm and subtle, tactile expression. Complementing the rugs is a new tapestry ottoman by *Ami Katz*, where traditional weaving techniques meet a bold, modern sensibility. Together, these pieces reflect *Vandra Rugs'* commitment to sustainable materials, artisanal production, and enduring design.

*"I often find that symmetrically placed geometric shapes can create dynamic compositions and that deconstructing patterns and taking them to the bare minimum can reveal interesting shapes in the empty spaces"* – Neisha Crosland

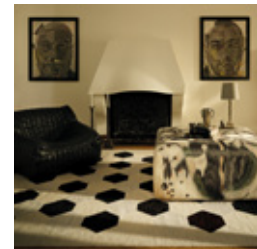

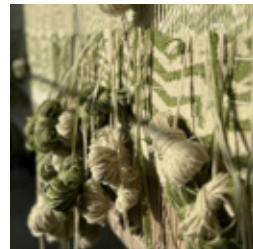

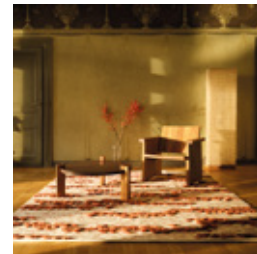

#### About Vandra Rugs

*Vandra Rugs'* handmade rugs unite design and craftsmanship, crafted from the finest natural materials – cotton, wool felt, wool yarn, and linen. Since 2007, the brand has operated its own weaving atelier in Ukraine, where skilled artisans, trained in both local traditions and by Swedish experts, bring depth and diversity to each collection

#### Bespoke Service

Our bespoke service allows you to customise rugs to suit your specific space. Select alternative colours, materials, textures, patterns and finishes beyond our collections. With our expertise, we can guide you in creating a rug that enhances and complements the space.
