

FOR IMMEDIATE RELEASE

## Devon Liedtke Makes Debut at 3 Days of Design in Partnership with Openhouse

COPENHAGEN, Denmark — June 10–12, 2026 — Devon Liedtke is proud to announce its first-ever exhibition at the 2026 edition of 3 Days of Design. This inaugural showcase will be hosted by the Barcelona-based creative powerhouse Openhouse and presented within the atmospheric walls of The Canary, a landmark venue that continues to define the intersection of home and gallery.

Known for a design language that bridges the gap between sculptural form and functional living, Devon Liedtke will present its namesake collection, thoughtfully styled by the renowned interior stylist Henriette Shou. The collaboration highlights a shared commitment to the "art of living"—a philosophy deeply embedded in both the Devon Liedtke and Openhouse creative DNA.

"Joining the vibrant community at 3 Days of Design is a significant milestone for us," says Devon Liedtke. "Exhibiting with Openhouse at The Canary feels like a natural extension of our work; it's a space that doesn't just house objects but invites you to experience them as part of a lived-in, honest, and intentional home. We've worked with Henriette before, and fully support her incredible eye for detail and styling; we are looking forward to presenting our vision within a narrative that feels both deeply intimate and global."

The exhibition at The Canary explores the quiet rituals of daily life, emphasizing the emotional resonance of materials and the deliberate placement of objects. Visitors are invited to step inside this curated environment, engage with the collection, and meet the team behind the work.

### Event Details:

- **Dates:** June 10–12, 2026
- **Location:** The Canary, Copenhagen
- **Press Preview & Inquiries:** Media representatives and industry professionals are encouraged to reach out to Serena Hawkey at [serena@devonliedtke.com](mailto:serena@devonliedtke.com) for private viewing appointments or high-resolution imagery.

**About Devon Liedtke:** Barcelona-based design studio, Devon Liedtke, is a collection of objects for the here and there, thoughtfully designed and crafted in Europe. The collections span materials, from earthenware and charred wood to marble and onyx, united by a shared language of texture, tone, and form.

Rooted in design and organic simplicity, the work honors the beauty of everyday rituals: a raku vase holding a single stem, a porcelain cup kept close at night, a carved bowl of salt at the table.

About Openhouse: Founded in Barcelona, Openhouse is a multidisciplinary creative platform and magazine dedicated to art, architecture, and design. Through their studio and curated exhibitions, Openhouse fosters a global community of creatives who share a philosophy of life rooted in culture, tradition, and the beauty of the everyday.
