Make This Moment Matter

Meaningful Comfort by Ekornes Interior Solutions

At **3daysofdesign 2026**, Ekornes Interior Solutions presents a carefully curated selection of Stressless[®] furniture, aligning with this year's theme **Make This Moment Matter** – a call to shift from “more” to **meaningful**, from decoration to **purpose**.

Ekornes Interior Solutions is the contract and project-focused division of Ekornes, delivering ergonomic seating solutions for hospitality, workplace and public environments worldwide. Rooted in Scandinavian craftsmanship and engineered for long-term use, the collection presented in Copenhagen reflects a belief that **comfort, responsibility and emotional value are not optional – they matter**. Ekornes has been designing and manufacturing furniture in Norway since **1934**, and has maintained a strong presence in the retail market in **Denmark for more than 40 years** and our goal by participating at 3DD is to expand into the contract business. This long-term commitment reflects a belief in durability, relevance and responsibility – values that remain central to Ekornes Interior Solutions today.

Designing for the Present – with Purpose

When the first **Stressless[®] chair was introduced in 1971**, it marked the beginning of a new way of thinking about seating – where ergonomic science, craftsmanship and human wellbeing were inseparable. More than five decades later, that philosophy continues to guide the development of furniture for modern workplaces and hospitality environments.

At 3daysofdesign 2026, Ekornes Interior Solutions demonstrates how meaningful design is not about adding more objects to the world, but about creating **fewer, better solutions** – designed to support presence, comfort and long-term use.

Stressless® Selections at 3daysofdesign 2026

The exhibition features a mix of lounge, sofa and home office solutions, demonstrating how ergonomic performance and refined design can coexist across different settings.

Stressless® Stella

A contemporary sofa and ottoman concept offering a soft, architectural expression combined with premium comfort. With generous proportions and refined detailing, Stella supports relaxed social interaction in hospitality and residential-inspired interiors.

Stressless® Berlin

An elegant seating family balancing lightness and support. **Stressless®** Berlin's sculpted form and ergonomic construction make it suitable for lounge areas, meeting spaces and refined waiting environments where visual clarity and comfort are equally important.

Stressless® Bay Home Office

Designed for focused moments, Stressless® Bay Home Office combines the brand's renowned ergonomic know-how with a compact, modern expression. Shown in multiple upholstery options, it reflects flexibility, individuality and long-term comfort in work environments.

Comfort That Does Something Good

“Making this moment matter means taking responsibility for what we put into the world,” says **Helge Overå, Sales Director, Ekornes Interior Solutions.**

“Our role is to create furniture that supports real life – moments of rest, focus and connection – while respecting both people and the planet. Comfort with meaning.”

Stressless® products are developed and manufactured in Norway, built for durability, repairability and long product life – supporting the shift from short-term consumption to long-term value.

Experience Ekornes Interior Solutions at 3daysofdesign

Visitors are invited to experience the collection and engage in conversations about **meaningful design, ergonomic performance and sustainable choices** during 3daysofdesign 2026 in Copenhagen.
