

SESTRÁ

FIRST COLLECTION LAUNCH
3daysofdesign, Copenhagen
10 – 12 June 2026
10:00~18:00 CET

TADAIMA STORE
Silkegade 11, 2nd Floor

SESTRÁ develops objects and furniture informed by research into everyday homemaking practices and emotional resilience within the home. The practice reinterprets domestic altars as contemporary spatial tools, opening a dialogue on how domestic environments shape care, resilience, and daily life.

The first collection explores how objects shape attention, care, and presence within the home. Positioned between collectible design and spatial practice, the pieces operate as both functional objects and perceptual devices.
