

ARTISAN[®]

PRESS RELEASE 2026

The Artisan factory emerged from the traditional woodwork shop Ćostović, which conveyed all its love towards wood and 50-year experience of wood processing into it. We acquired our first experiences by producing furniture for Dutch and British designers, and we started our own first collection in collaboration with the regional designers in 2007.

Driven by our passion for wood, we work with the top local and international designers who are familiar with our technological advantages and who understand how to translate the expertise into a vision that is worthy of this precious material. We employ our artisans' hands as our primary manufacturing tools because we aim to invest our love for wood into our products. The Artisan craftsmen are masters of transforming the designers' ideas into one-of-a-kind handcraft.

Our love for wood

”We love wood because we have known it our entire life. From the forest, we played in as children, to the calling to which we have dedicated our adulthood. We produce furniture because we love wood, and we want to share this love with you, with those who appreciate fine woodworking and furnishings of the highest quality.”

Founder Fadil Ćostović

For the Salone del Mobile 2026 edition, we are proud to present our new collection, showcasing for the first time the products that will define Artisan's vision for 2026.

This year, we introduce fresh variations of our iconic designs, such as the Column table and Monument mirrors, alongside new interpretations like the Fin extension table in a square-top version. In addition to these evolutions, the collection brings entirely new creations: the Nila Collection, featuring a chaise lounge and two armchairs, complemented by a versatile shelving system that doubles as a room divider.

We also unveil the Oskar console and table, first introduced at Maison & Objet in Paris, now presented in a refined smoked oak finish. Completing the lineup is the Bloop sideboard, a bold yet elegant addition that redefines storage with fluid geometry and meticulous craftsmanship.

Each piece reflects Artisan's dedication to timeless design, technical precision, and the beauty of solid wood.

This collection is not just a continuation, it is a statement of innovation and artistry, designed to elevate contemporary interiors with character and soul.

Nila Lounge Collection

The Nila Lounge Collection reflects Artisan's dedication to craftsmanship and material harmony. Bold yet refined, each design is defined by a sculptural timber frame, softly shaped armrests, and balanced proportions.

Nila brings together technical precision and elegance in a form that feels both timeless and new, making it a focal point for luxury residential, hospitality, and commercial interiors.

Designed with intention. Guided by experience.

NILA LOUNGE HIGH

NILA LOUNGE TRIMMED

PRESS RELEASE - 3DAYSOFDDESIGN 2026

NILA CHAISE LOUNGE

Nila Shelving System

Defined by soft lines and structural integrity, the Nila shelving system is a series of light, airy display units designed to complement modern spaces. Vertical supports blend seamlessly into the upper and lower boards, creating soft transitions and a harmonious structure.

Perfect as a room divider or a standalone feature, the Nila shelving system brings both function and aesthetic refinement.

Materials & Sustainability – The Soul of Our Craft

Wood is more than a material; it is a living element that evolves over time, gaining character and depth. Sourced responsibly, each piece of wood we select is transformed through meticulous craftsmanship, ensuring its natural beauty is preserved and enhanced.

Sustainability is at the core of our production process. Every stage, from sourcing to finishing, reflects our commitment to environmental responsibility and timeless durability.

Each ARTISAN piece bears the touch of those who shaped it.

Our craftsmen, many of whom have worked with the company for more than 15 years, embody the heart of our brand - a heritage of skill, patience, and dedication to perfection. Their hands tell our story. Their craft makes it timeless.

NILA OFFICE HIGH CHAIR

MONUMENT SQUARE MIRROR

PRESS RELEASE - 3DAYSOFDESIGN 2026

Monument Desk & Executive

The Monument desk combines functionality with a strong, architectural presence. Defined by its shaped desktop and angled legs, the design offers a distinctive profile that shifts subtly from different viewpoints.

The executive version is complemented by a chest of drawers, providing integrated storage while maintaining the clarity of the overall form.

Crafted from sustainably sourced solid wood, the desk is designed for durability and long-term use.

MONUMENT ORGANIC MIRROR WITH LEGS

PRESS RELEASE - 3DAYSOFDESIGN 2026

Oskar Collection

The Oskar Collection consists of a table and console, distinguished by sculptural legs and inspired by modernist column designs from Brasília. Fluid transitions between horizontal and vertical elements create an architectural silhouette that is both dignified and understated. The table is also available in a symmetrical leg configuration, offered in both three- and four-leg variations, providing flexibility across different interior settings.

Each piece is crafted from carefully selected solid wood, precisely milled and finished by Artisan's skilled craftsmen. The console derives from the table design, using the wall as a section plane that reveals and utilises the H-shaped support element.

Presented in Milan — now available in a refined smoked oak finish, the Oskar Collection is a testament to timeless design and craftsmanship.

OSKAR TABLE

PRESS RELEASE - 3DAYSOFDESIGN 2026

OSKAR CONSOLE

Fin Extension Table Square

The Fin extension table exemplifies seamless functionality paired with elegant design. Originally introduced with a round tabletop, this signature piece is equipped with a precision-engineered mechanism that enables smooth, tool-free extension and retraction.

New for 2026: Building on the success of the original round design, the Fin extension table now is available in a striking variation with a square-shaped tabletop, offering a fresh interpretation while maintaining its technical excellence and timeless appeal.

Column Table

Column, defined by its bold, solid base and distinctive architectural profile. Carefully balanced proportions enhance both aesthetics and functionality, making it a striking yet practical addition to any interior.

New for 2026: The collection introduces exciting variations of the Column table, including a single-base oval version and the Column Oval Double Base and a small side table. These new interpretations preserve the iconic character of the original design while offering versatile options as statement pieces for diverse interiors.

Bloop Sideboard

A storage piece defined by its softened, rounded form, the Bloop Sideboard reduces the visual weight typically associated with larger sideboards, allowing it to integrate effortlessly within contemporary living and dining spaces.

Crafted from FSC-certified European wood, Bloop combines sculptural curved geometry with concealed internal storage, delivering a considered balance of elegance and practicality.

Hand-finished by skilled artisans, each piece reflects a slower and more considered approach to furniture making, where proportion, material integrity, and longevity shape the final outcome.

Generational Craftsmanship in Solid Wood from Bosnia

Since its inception in 2007, Artisan has grown from a small workshop to a global brand represented in over 250 locations, honoured with more than 20 international design awards. With a team of over 300 craftspeople, Artisan oversees every step of production in-house, from the sawmill to the final hand-assembled piece, ensuring quality, sustainability and authenticity at every stage.

We are honoured to be trusted partners and suppliers to some of the world's most respected luxury brands and hospitality leaders, including Hermès, Louis Vuitton, Aman Resorts, Hyatt and Four Seasons.
